Statement of Janice Bolton  
House of Reps / Natchitoches

March 23, 2011

State Representative Rick Nowlin  
District 23

Dear Rep. Nowlin

Since 1714, Natchitoches has been an integral part of Louisiana. Our heritage is interconnected with the surrounding areas including areas from Black Lake to lower Cane River. The identity of our community does not just include city limit boundaries but the citizens that surround us.

I support your efforts to keep this community of Natchitoches whole in terms of representation in the State Legislature. I oppose any effort to dissect our community in redistricting by the Legislature. We need one representative who understands the fabric that makes up the Natchitoches area as a whole.

As a Realtor, I introduce new people to our community as a whole and hope that the Legislature will keep our community whole as well in this redistricting process.

Thank you for your efforts.
