Subject: REDISTRICTING INFORMATION - DISTRICT 27

Speaker Tucker:

I wanted to advise you of the results of my most recent mailing to the constituents of District 27. As you know, I recently sent out an Issues Survey concerning the issue of redistricting. I have received what I consider to be a very good response.

In response to the general question of how important it was for my constituents to remain in District 27, the overwhelming consensus was that it was VERY important.

When questioned concerning the specific communities my constituents would like to see remain in District 27, we got the following results:

- Ball Overwhelmingly YES
- Tioga Overwhelmingly YES
- Pineville Overwhelmingly YES
- Ruby Overwhelmingly YES
- Kolin Overwhelmingly YES
- Deville Overwhelmingly YES
- Poland Overwhelmingly YES
- Echo Overwhelmingly YES
- Cheneyville Overwhelmingly YES
- Midway UNCERTAIN
- Forest Hill Overwhelmingly YES
- McNary Tied YES and UNCERTAIN
- Glenmora Overwhelmingly YES
- Plainview UNCERTAIN

It is my understanding and belief that a majority of the residents in north Rapides Parish which is the majority of District 27, have a very strong desire to see District 27 revert back to that of lying mostly north of the Red River.

In another issue polled, it was determined that the Budget was the number one issue facing Louisiana, followed closely by the issue of Jobs with Healthcare coming in third.

Chris Hazel

State Representative, District 27
