

Parish Sales Tax Collections  
From 2014 Audit Reports of Parish Collectors

**METHODOLOGY:** From the most recent audit reports of local government tax collectors that have been filed with the Louisiana Legislative Auditor, we scheduled the collections of sales taxes and the distribution of these taxes to the local taxing jurisdictions within each parish. We then calculated the percentage of sales taxes that were distributed to each taxing jurisdiction. From the Louisiana Association of Tax Administrators website, we determined the average sales tax rates for each taxing jurisdiction in each parish and estimated the average local sales tax for each parish. We then calculated the estimated sales within each parish.
