"§1299.58.1. Legislative purpose, findings, and intent
A. Purpose and findings.
(1) The legislature finds that all persons have the fundamental right to control the decisions relating to their own medical care, including the decision to have life-sustaining procedures withheld or withdrawn in instances where such persons are diagnosed as having a terminal and irreversible condition.

(2) The legislature further finds that the artificial prolongation of life for a person diagnosed as having a terminal and irreversible condition may cause loss of individual and personal dignity and secure only a precarious and burdensome existence while providing nothing medically necessary or beneficial to the person.

(3) The legislature further finds that although cardiopulmonary resuscitation has saved the lives of persons experiencing sudden, unexpected death, it is appropriate for an attending physician, in certain circumstances, to issue an order not to attempt cardiopulmonary resuscitation on a patient. Furthermore, there is a need to clarify and establish the rights and obligations of patients, their families, and health care providers regarding cardiopulmonary resuscitation and the issuance of orders not to resuscitate.

(4) In order that the rights of such persons may be respected even after they are no longer able to participate actively in decisions concerning themselves, the legislature hereby declares that the laws of the state of Louisiana shall recognize:
(a) The right of such a person to make a declaration instructing his physician to withhold or withdraw life-sustaining procedures or designating another to make the treatment decision and make such a declaration for him, in the event he is diagnosed as having a terminal and irreversible condition. and

(b) The right of certain individuals to make a declaration pursuant to which life-sustaining procedures may be withheld or withdrawn from an adult patient who is comatose, incompetent, or otherwise physically or mentally incapable of communication, or from a minor, in the event such adult patient or minor is diagnosed and certified as having a terminal and irreversible condition.

(5) In furtherance of the rights of such persons, the legislature finds and declares that nothing in this Part shall be construed to be the exclusive means by which life-sustaining procedures may be withheld or withdrawn, nor shall this Part be construed to require the application of medically inappropriate treatment or life-sustaining procedures to any patient or to interfere with medical judgment with respect to the application of medical treatment or life-sustaining procedures.

B. Intent.

(4) It is the further intent of the legislature to give direction to emergency medical services personnel and other health care providers in regard to the performance of cardiopulmonary resuscitation."

AMENDMENT NO. 6
