§502. Creation of optional retirement plan

There is created an optional retirement plan for the unclassified state employees who are eligible pursuant to R.S. 11:504 to become members of the Louisiana State Employees’ Retirement System. Those eligible employees who select this optional benefit shall not be considered eligible for any benefits provided by the defined benefit plan, and cannot maintain any service credit in the defined benefit plan once this option is elected.

§503. Selection of providers

The Board of Trustees of the Louisiana State Employees’ Retirement System shall select no more than three providers with which participants will be authorized to place their contributions in products that shall be selected by the Board of Trustees. In selecting the providers, the board of trustees shall consider, among other things, the following:

A. The tax status of the product.
B. The portability of the products offered by the providers.
C. The types of products offered by the providers.
D. The relation of the costs and benefits as relates to the amount of the contributions to be made pursuant to the provisions of this Part.
E. The ability of the designated provider or providers to provide the rights and benefits under the products.

§504. Eligibility; irrevocable election

A. (1) The following unclassified state employees shall be eligible to make an irrevocable election to participate in this optional retirement plan:

(a) The chief executive officer of the State Group Benefits Program.

(b)(i) Any unclassified state employee who is appointed by a statewide elected official and whose appointment is subject to confirmation by the Louisiana Senate.

(ii) Any unclassified state employee who is a member of the staff of any such employee described in Item (i) of this Subparagraph.

(2) Such election shall be made in writing and filed with the Louisiana State Employees’ Retirement System within sixty days from such appointment. Elections will be effective as of the date of appointment. If an eligible employee fails to make the election timely, he shall become a member of the retirement system’s defined benefit plan as of the date of appointment.

B. (1) Any participating member of the defined benefit plan, who would otherwise be eligible to participate in this optional retirement plan under the provisions of Subsection A of this Section, may irrevocably elect to participate in this optional retirement plan under the provisions of this Subpart, but any such election shall be filed in writing with the Louisiana State Employees’ Retirement System prior to September 1, 2000, or the member shall remain in the defined benefit plan.

(2) If, pursuant to this Paragraph, an election is made to participate in the optional retirement plan by a current member of the defined benefit plan, then the employee and employer contributions that were made on behalf of such member in the defined benefit plan shall be transferred to the participant’s optional retirement plan.

(3) Any otherwise eligible employee who has service credit in the defined benefit plan shall be ineligible to participate in the optional retirement plan, unless such employee transfers all such credit from the defined benefit plan to this optional retirement plan in accordance this Subsection.

§505. Contributions

A. Each participant of this optional retirement plan shall contribute monthly the same amount that would have been contributed to the defined benefit plan, as if the participant were a member of that plan. Participant’s contributions may be made by employer pick-up in accordance with the provisions of Section 414(h)(2) of the United States Internal Revenue Code or any amendment thereto. The entirety of each participant’s contribution, less any monthly fee established by the Board of Trustees for the Louisiana State Employees’ Retirement System to cover the cost of administration and maintenance of the optional retirement plan, shall be remitted to the applicable designated provider or providers for application to the participant’s account or accounts.

B. (1) Each employer agency, institution or board shall contribute to the Louisiana State Employees’ Retirement System on behalf of each participant in this optional retirement plan the same amount that would have been contributed to the defined benefit plan.

(2)(a) Upon receipt of this contribution, the Louisiana State Employees’ Retirement System shall promptly pay over to the appropriate designated provider or providers an amount equal to the employer’s portion of the normal cost contribution as set forth in the actuarial valuation of the retirement system which is approved annually by the Public Retirement System’s Actuarial Committee. That amount shall be credited to the participant’s account or accounts, subject to any other applicable provisions of this Section.

(b) Notwithstanding the provisions of Subparagraph (a) of this Paragraph, the Louisiana State Employees’ Retirement System shall retain and apply to the unfunded accrued liability the amount if any, of the employer contributions paid on behalf of any optional retirement plan participant which exceeds the employer’s portion of the normal cost contribution.

(3)(a) In addition to the amount retained pursuant to Paragraph (2) of this Subsection, an additional contribution shall be retained, subject to the following procedures. The annual actuarial valuation presented to the Public Retirement System’s Actuarial Committee pursuant to R.S. 11:277(C) shall identify any adverse actuarial impact occurring on and after July 1, 2000, as the result of participation of the employees set forth in this Section. Then, the system actuary shall identify and recommend the additional amount of the employer’s portion of the normal cost contributions made on behalf of optional retirement plan participants that is necessary to be retained to offset such adverse actuarial impact, if any.

That amount shall be increased or decreased annually thereafter according to the same procedures in the amount needed to offset such adverse actuarial impact to the system, if any.

(4) The process of retaining contributions, as identified in Paragraphs (B)(2) and (3) of this Subsection shall continue until the unfunded accrued liability of the retirement system is fully amortized.

§506. Limitations; unclassified employees

If any such optional retirement plan participant assumes a new position covered by the retirement plan then he shall continue to participate in the optional retirement plan, notwithstanding the provisions of R.S. 11:411. Any person covered by R.S. 11:502 through 508 who elects to participate in this optional retirement plan shall agree that the benefits payable to participants are not the obligations of the state of Louisiana or the Louisiana State Employees' Retirement System and that such benefits and other rights of the optional retirement plan are the sole liability and responsibility of the designated provider or providers to which contributions have been made. Furthermore, all such participants shall in accordance with this agreement expressly waive his or her rights set forth in Article X, Section 29(A) and (B) of the Louisiana Constitution.

B. (1) Benefits shall be payable to such optional retirement plan participants or their beneficiaries by the designated provider or providers and not by the Louisiana State Employees' Retirement System, in accordance with the contract types provided by the providers selected and the contracts approved for use in the optional retirement plan by the board of trustees of the Louisiana State Employees' Retirement System.

(2) Additionally, the board of trustees may approve direct transfers by and between providers.

(3) Participants in the optional retirement plan shall not be entitled to any benefits that members in the defined benefit plan are entitled to, but not limited to, disability benefits, survivor benefits, participation in the Deferred Retirement Option Plan, and any cost of living adjustments granted to retirees of the defined benefit plan.

C. Any such optional retirement plan participant receiving retirement benefits under Subsection B of this Section shall be eligible to participate in the State Employees’ Group Benefits Program in accordance with its laws and regulations.

D. By participating in the optional retirement plan the participant and the provider shall be responsible for complying with all applicable provisions of the Internal Revenue Code, and if any violation of this Code does occur as a result of the participant's participation in the optional retirement plan, it will be the responsibility and liability of the participant and the provider and not the Louisiana State Employees' Retirement System.

E. There shall be no liability on the part of and no cause of action of any nature shall arise against the Louisiana State Employees' Retirement System, or its agents or employees, for any action taken in the performance of the duties under this Subsection.

§508. Implementation

For purposes of this Subpart, employees who are eligible to participate in this optional retirement plan shall be referred to as "teachers".

§952. Purpose

The purpose of the optional retirement plan is to provide retirement and death benefits to the participants while affording the maximum portability of these benefits to the participants. Benefits shall be provided by the purchase of annuity contracts, fixed or variable in nature, or a combination thereof, at the option of the participant.

§953. Administration

The Teachers' Retirement System of Louisiana or any successor shall provide for the administration and maintenance of the optional retirement plan.

§954. Criteria for placement of contracts

The Board of Trustees of the Teachers' Retirement System of Louisiana shall select no more than three companies from which contracts will be purchased. In setting the criteria for this selection, the board shall consider, among other things, the following:

(4) The relation of the rights and benefits to the amount of the contributions to be made pursuant to the provisions of this Subpart.

(5) The suitability of the rights and benefits to the needs and interests of participating employees and the various state public institutions of education.

(6) The ability of the designated company or companies to provide the rights and benefits under such contracts.

§955. Eligibility

A. Teachers who are current nonvested members in the regular retirement plan of the Teachers' Retirement System of Louisiana may make an irrevocable election to participate in the optional retirement plan within one hundred eighty days after the implementation date of the optional retirement plan at their employer institution or board. Eligible employees who are initially employed on or after the implementation date at their employer institution or board may make an irrevocable election to participate in the optional retirement plan within sixty days after their employment date. Any teacher who is not eligible for membership in the Teachers' Retirement System of Louisiana because of age shall be eligible to participate in the optional retirement plan upon election by such employee. Elections must be made in writing and filed with the appropriate officer of the employer institution or board, who shall forward a copy of the completed election to the Teachers' Retirement System of Louisiana. Current Teachers' Retirement System of Louisiana nonvested members' elections will be effective as of the date they are filed. Elections of eligible employees hired on or after the implementation date of the optional retirement plan at their institution or board will be effective as of the date of their employment. If an eligible employee fails to make the election provided for in this Section, he shall become a member of the regular retirement plan of the Teachers' Retirement System of Louisiana in accordance with R.S. 11:721.

B. Notwithstanding the provisions of Subsection A of this Section any teacher who is an active contributing member in the regular retirement plan of the Teachers' Retirement System of Louisiana and who has less than ten years of creditable service in the Teachers' Retirement System of Louisiana, may make an irrevocable election to participate in the optional retirement plan and transfer his accumulated employee contributions to the optional retirement plan under the provisions of R.S. 11:956(A). The election provided by this Subsection can be made by a member only prior to attainment of ten years of creditable service in the Teachers' Retirement System of Louisiana.

C. Any person who is a teacher who is not eligible for membership in the Teachers' Retirement System of Louisiana because he is a part-time, seasonal, or temporary employee as defined in 26 CFR 31:3121(b)(1)-2, or in any successor regulation, may make an irrevocable election to participate in the optional retirement plan and transfer any accumulated employee contributions to the optional retirement plan under the provisions of R.S. 11:956(A).

§955.1. Age modifier; actuarial soundness

A. The provisions of this Subpart were made the subject of intensive study by the office of the legislative actuary, who published an actuarial note in compliance with R.S. 24:521. The actuarial note stated that the possibility of anti-selection exists since the employee will choose the plan that appears most financially advantageous. Generally, younger members, below age thirty and less than ten years of service, would tend to opt for the Optional Retirement Plan savings plan. The plan loses the actuarial cost savings from younger members, who would not enter, and incurs the heavier actuarial expense of older members, who would tend to join the retirement plan.

B. Therefore, based on the actuary's concern for anti-selection, and the possible resulting adverse actuarial impact to the Teachers' Retirement System, only persons who are over age thirty shall be eligible for participation in this Optional Retirement Plan, provided any such person is otherwise eligible under all other provisions of this Subpart.
§956. Transfers
   A. A current member in the Teachers’ Retirement System of Louisiana who elects participation in the optional retirement plan shall have the right to have his accumulated employee contributions transferred to the optional retirement plan. Upon such election, the Teachers’ Retirement System of Louisiana shall transfer his accumulated employee contributions directly to the optional retirement plan to purchase benefits thereunder, and the funds will not be available to the employee.

   B. A current vested member in the Teachers’ Retirement System of Louisiana or a member with sufficient years of service credit but who is not old enough to receive a benefit and who elects participation in the optional retirement plan will have the same rights and privileges accorded by R.S. 11:726.

§957. Contributions
   A. Each participant shall contribute monthly to the optional retirement plan the same amount which he would be required to contribute to the regular retirement plan of the Teachers’ Retirement System of Louisiana if he were a member of that retirement plan. Participant contributions may be made by employer pick-up in accordance with the provisions of Section 414(h)(2) of the United States Internal Revenue Code or any amendment thereto. The entirety of each participant’s contribution, less any monthly fee established by the board to cover the cost of administration and maintenance of the optional retirement plan, shall be remitted to the appropriate designated company or companies for application to the participant’s contract or contracts.

   B. (1) Each employer institution or board shall contribute to the Teachers’ Retirement System of Louisiana on behalf of each participant in the optional retirement plan the amount that would have been contributed if the participant had been a member of the regular retirement plan of the Teachers’ Retirement System of Louisiana.

   (2)(a) Upon receipt of this contribution, the Teachers’ Retirement System of Louisiana shall promptly pay over to the appropriate designated company or companies an amount equal to the employer’s portion of the normal cost contribution as set forth in the actuarial valuation of the Teachers’ Retirement System of Louisiana approved annually by the Public Retirement Systems’ Actuarial Committee. That amount shall be credited to the participant’s contract or contracts, subject to any other applicable provisions of this Section.

   (b) Notwithstanding the provisions of Subparagraph (a) of this Paragraph, the Teachers’ Retirement System of Louisiana shall retain and apply to the unfunded accrued liability of the system that amount of the employer’s contributions paid on behalf of any optional retirement plan participant which exceeds the employer’s portion of the normal cost contribution.

   (3)(a) In addition to the amount retained pursuant to Paragraph (2) of this Subsection, an additional contribution shall be retained, subject to the following procedures. The annual actuarial valuation presented by this system’s actuary to the Public Retirement System’s Actuarial Committee pursuant to R.S. 11:127(C) shall identify any adverse actuarial impact occurring on and after January 1, 2000, as the result of creating this optional retirement plan and the participation of teachers thereon. Then, the system actuary shall identify and recommend the additional amount of the employer’s portion of the normal cost contributions made on behalf of optional retirement plan participants that is necessary to be retained to offset such adverse actuarial impact, if any.

   (b) Any additional amount of the employer’s portion of the normal cost contributions recommended to be retained pursuant to Subparagraph (a) of this Paragraph shall be retained from such contributions that are made in the immediately following plan year, subject to approval of the Public Retirement Systems’ Actuarial Committee. That amount shall be increased or decreased annually thereafter according to the same procedures in the amount needed to offset such adverse actuarial impact to the system, if any.

   (4) The process of retaining contributions, as identified in Paragraphs (2) and (3) of this Subsection shall continue until the unfunded accrued liability of the Teacher’s Retirement System is fully amortized.

   C. Notwithstanding the provisions of Subsections A and B of this Section, the Teachers’ Retirement System of Louisiana shall not remit any funds or contributions to any company or companies from an employer institution or board until the correct and total amount, rounded to the nearest dollar amount, is remitted to the Teachers’ Retirement System of Louisiana under Subsections A and B of this Section is received each month from the employer institution or board.

D. If a participant first became eligible for membership in the Teachers’ Retirement System of Louisiana on or after July 1, 1996, the contributions remitted by the Teachers’ Retirement System of Louisiana to any authorized company shall not be based upon compensation in excess of the annual limit of Section 401(a)(17) of the United States Internal Revenue Code as amended and revised.

§958. Limitations
   Any person electing to participate in the optional retirement plan shall always be ineligible for membership in the regular retirement plan of the Teachers’ Retirement System of Louisiana, even if he is employed in a position covered by the Teachers’ Retirement System of Louisiana. If an optional retirement plan participant assumes a new position covered by the Teachers’ Retirement System of Louisiana, he shall continue to participate in the optional retirement plan. If an optional retirement plan participant assumes a new position in state service not covered by the Teachers’ Retirement System of Louisiana, he must at that time begin membership in the appropriate retirement system which provides benefits for that position in state service, other than the Teachers’ Retirement System of Louisiana.

§959. Benefits not obligation of the state
   A. Any person electing to participate in the optional retirement plan shall agree that the benefits payable to participants are not the obligations of the state of Louisiana or the Teachers’ Retirement System of Louisiana, and that such benefits and other rights of the optional retirement plan are the liability and responsibility solely of the designated company or companies to whom contributions have been made. Furthermore, all participants shall in accordance with this agreement expressly waive his or her rights set forth in Article X, Section 29(A) and (B) of the Louisiana Constitution.

   B. Benefits shall be payable to optional retirement plan participants or their beneficiaries by the designated company or companies; however, retirement benefits shall be paid in the form of a lifetime income and, except for death benefits, single-sum cash payments shall not be permitted; provided, however, the Board of Trustees of the Teachers’ Retirement System may approve direct transfers by and between companies.

   C. An optional retirement plan participant receiving retirement benefits under Subsection B of this Section shall be eligible to participate in the State Employees Group Benefits Program only if he has accumulated the total number of years of credited service which would have entitled him to receive a retirement allowance from the defined benefit plan of the Teachers’ Retirement System of Louisiana.
D. Upon retirement of an optional retirement plan participant under Subsection B of this Section, the employer institution shall provide to the Teachers’ Retirement System of Louisiana the total number of years of creditable service of that participant for the purpose of compliance with this Subsection. After receipt of the information required of the employer institution or board, the retirement system shall certify eligibility under Subsection C of this Section to the State Employees Group Benefits Program.

E. In the event that an optional retirement plan participant is required to prove entitlement to a disability retirement allowance from the defined benefit plan of the retirement system in order to be eligible for participation in the State Employees Group Benefits Program, the retirement system shall be responsible only for certification of the total number of years of creditable service as provided by the employer institution or board. Any medical finding of disability necessary for eligibility under Subsection C of this Section shall be the sole responsibility of the participant as required by the State Employees Group Benefits Program.

F. There shall be no liability on the part of and no cause of action of any nature shall arise against the Teachers’ Retirement System of Louisiana, or its agents or employees, for any action taken in the performance of the duties under Subsection D or E of this Section.

§960. Exemption from execution

Annuity contracts issued under the optional retirement plan and all rights thereto of a participant in the optional retirement plan shall be exempt from any state or municipal tax, assessment for the insolvency of any life insurance company, any levy or sale, garnishment, attachment, or any process whatsoever, and shall be unassignable except as otherwise specifically provided in the annuity contract.

§961. Implementation

The Board of Trustees of the Teachers’ Retirement System of Louisiana shall implement the Optional Retirement Plan created pursuant to this Subpart on or before January 1, 2000.

AMENDMENT NO. 6

On page 3, after line 1, add:

On page 2, line 21, change "U.S." to "United States"

On page 2, delete line 26 in its entirety and insert in lieu thereof the following:

"(b) Unless otherwise required by the U.S. Environmental Protection Agency, regulations authorized and adopted pursuant to the Clean Air Act Amendments of 1990, the regulations adopted pursuant to this Paragraph, at a minimum, shall provide for the following:

(i) A biennial emission inspection for vehicles that are registered or required to be registered in any affected parish that is classified as "serious" or worse on the ozone non-attainment list of the U.S. Environmental Protection Agency on January 1, 1998, for which a program emission inspection fee not to exceed ten dollars per vehicle inspected may be imposed if Intermodal Surface Transportation Efficiency Act funds are available for the purpose; otherwise and to the extent that funds are not available a fee not to exceed twenty dollars per vehicle inspected may be imposed. The secretary of the Department of Public Safety and Corrections may impose as an additional fee the minimum amount necessary to fund the emission inspection program provided for in this Paragraph, such fee may be imposed commencing January 1, 1998, and which shall not exceed five dollars for the inspection of any vehicle registered in any affected parish. The additional annual fee authorized herein, and any other funds available for the purpose, shall be used to offset the program emission inspection fee and may be used to supplement the program emission inspection costs. However, to the extent that funds are available, from whatever source, in an amount sufficient for the program to operate without assessment of part or all of one or both of the fees authorized herein, such fees shall not be collected or, if being collected, shall be suspended until the continued collection is necessary.

(ii) To ensure that the per vehicle fees imposed are no greater than the minimum amount necessary to fund the emission inspection program, the secretary and the secretary of the Department of Public Safety and Corrections shall each file an annual report with the legislative auditor prior to March first showing both actual and anticipated costs and revenues for the program.

(iii) Privately operated facilities employing tests designed to achieve federal performance standards. It is the goal of this Subparagraph that such facilities be located not more than fifteen miles driving distance from ninety percent of the affected population's residences and designed to require a total maximum inspection and waiting time of not more than fifteen minutes.

(iv) On road testing, which includes but is not limited to remote sensing in all affected parishes for all registered vehicles, with appropriate followup testing for failing vehicles. Such followup testing is to be conducted at an emission inspection facility and enforced by the possibility of registration suspension or denial.
Followup testing shall be exempt from the maximum driving distance provision of this Paragraph. Consideration shall be given to the maximum extent appropriate, for the use of remote sensing and other available technology, as a method for selection of vehicles for followup testing at an emission inspection facility.

(v) The provisions of R.S. 30:2064 notwithstanding, a vehicle scrappage program, optional for the vehicle owner, designed to accelerate the removal and disposal of gross emitting vehicles that cannot be repaired within the repair cost limits set by the secretary or the value of which is exceeded by the cost for such repair. The implementation of such scrappage program shall coincide with that of the emission inspection program provided for in this Paragraph and shall be voluntarily funded by stationary source industries within the nonattainment area in exchange for emission reduction credits; banking, and trading criteria established by rules of the secretary to provide participation incentives to industries using a cost-per-ton formula for achieving decreases or increases over time and the patterns of monitoring site exceedances and total exceedances for the various areas where attainment has not been achieved fully.

(vi) An educational program with criteria to certify highly trained and qualified repair mechanics, a repair mechanic training program sufficiently funded to permit the purchase of equivalent technology to that used at an emission inspection facility, and a system designed to reduce the public inconvenience of multiple retesting of repaired vehicles.

(vii) In determining the specific test technology to be implemented, the secretary shall preserve the state's options provided by federal law to vary from the specific program features required by EPA rules and to consider alternate, evolving, cost-effective technologies, presenting minimal public inconvenience, which are designed to bring Louisiana into compliance with federal ambient air quality standards and meet EPA required elements. The secretary shall annually report to the secretary of the Louisiana Legislature demonstrating the ongoing search for technology which may be employed to reduce ozone causing emissions.

(viii) The secretary shall hold at least one public meeting in each affected parish prior to the commencement of any testing to inform the residents of the program and any testing procedures concerning the requirements of federal law and regulations, to increase citizen support for the program, to answer questions, and to gain insight into ways in which the program might be altered to be more effective and less intrusive; thereafter the secretary shall do so annually for the duration of the program.

(ix) At each inspection facility, notices shall be displayed in a place of prominence stating that the subject program, all inspections and funding provisions are expressly required by the U.S. Environmental Protection Agency and by an act of Congress. Additionally, such notices shall be included on all cost- and fee-related transaction forms.

(x) No contract for the inspection of vehicles or for the distribution of equipment for the inspection of vehicles shall be executed by the department before January 1, 1998.

(xi) No vehicle shall be subject to an emissions inspection pursuant to this Subsection before January 1, 1999.

(e) The provisions of this Paragraph shall not apply to antique motor vehicles displaying special license plates as provided by R.S. 47:462.8.

(d)(i) To prepare and disseminate an annual ozone standard attainment monitoring report presenting data collected from monitors in all affected areas of the state:

(ii) The annual report shall be used by the department in its efforts to evaluate its existing and proposed programs, including for the inspection of motor vehicle emissions, if any, to achieve attainment of the National Ambient Air Quality Standard for ozone, and to provide summary information for the education of the public concerning progress toward achievement of said standard.

(iii) The report shall include summary information as follows: background information on the federal requirements for annual reporting, the types of data which must be reported, and the number of hours, days, monitors, and violations which are reflected by the data and reported to EPA for past, current, and future years. The report shall provide analysis of the data reflecting trends including decreases or increases over time and the patterns of monitoring site exceedances and total exceedances for the various areas where attainment has not been achieved fully.

(iv) The report should include any other data and information reasonably necessary to enhance the public's understanding of the ozone nonattainment data and report. The report should include tabular and chart formats to facilitate its use and understanding by the public.
