AMENDMENT NO. 2
On page 2, between lines 9 and 10, insert the following:

"WHEREAS, mineral revenues derived from severance taxes and royalties have been very volatile over the last two decades due to geopolitical and global market or demand conditions that are outside the control of the United States and the state of Louisiana; and"
WHEREAS, just within the last two fiscal years such fluctuations have been common, for example during the 1998-1999 Fiscal Year, the state appropriated monies based on oil selling at fifteen dollars per barrel, but because of precipitous market drops, the revenue estimates had to be revised downward to twelve dollars per barrel by midyear; and

WHEREAS, one way to reduce the risk associated with a volatile revenue source is to enter into commodity or other swap agreements, forward payment conversion agreements, futures contracts, contracts to exchange cash flows or a series of payments or contracts, and other similar contracts, hereinafter referred to as mineral revenue contracts, which if prudently acquired can prevent the shock of state appropriations being supported by mineral revenues which may sharply fall during the course of a fiscal year; and

WHEREAS, over the course of a fiscal year, if the state can execute reasonable mineral revenue contracts, monies available for appropriation could more accurately reflect average annual receipts.

AMENDMENT NO. 3
On page 2, between lines 16 and 17, insert the following:

"BE IT FURTHER RESOLVED that the Legislature of Louisiana urges and requests the members of the Revenue Estimating Conference and the members of the Joint Legislative Committee on the Budget recommend that the state treasurer contract to establish a firm price for anticipated mineral production through the use of mineral revenue contracts and to urge and request the Legislature of Louisiana to provide an operating budget appropriation sufficient to cover administrative costs and monies necessary to execute such contracts in the 2000-2001 Fiscal Year's budget."
