(3)(a) Option 3. The retiree may request immediate suspension of his benefit and become a member of this system, effective on the first day of reemployment. Upon such regaining of membership, he shall contribute thereafter at the current contribution rate as applicable to his position. Upon subsequent retirement, his suspended retirement allowance shall be restored to full force and effect. In addition, if he has worked and contributed for at least thirty-six months, his retirement allowance shall be increased by an amount attributable to his service and average compensation since

reemployment based on the computation formula in effect at the time of subsequent retirement. If he has been reemployed for a period less than thirty-six months, upon termination of reemployment the contributions paid by the retiree since his reemployment shall, upon application, be refunded to the retiree. In no event shall the member receive duplicate credit for unused sick and annual leave that had been included in the computation of his original retirement allowance. Any supplemental benefit shall be based on reemployment service credit only and shall not include any other specific amount which may otherwise be provided in the regular retirement benefit computation formula. In the event of the member's death prior to subsequent retirement, payment of benefits to the designated beneficiary or survivor shall be in accordance with the option selected by the member at the time of his original retirement. No change in the option originally selected by the member shall be permitted except as provided in R.S. 11:446(C). In no event shall the supplemental benefit exceed an amount which, when combined with the original benefit, equals one hundred percent of the average compensation figure used to compute the supplemental benefit. Under no circumstances shall any person who has regained membership pursuant to the provisions of this Paragraph be allowed to purchase service credit for any period employed in the state service during which he continued to draw his retirement allowance.

(b) Notwithstanding the provisions of this Section or any other provision of law to the contrary, any retiree of the system who has at least thirty years of service credited to his account, has been retired for at least one year, is eligible to receive his full retirement benefits, and has been appointed by the governor to fill an unclassified civil service position shall be exempt from any increase, suspension or reduction of benefits received from this system as the result of reemployment.

At least one signature on each bond shall be a manual signature. The seal or a facsimile thereof of the district shall be affixed or otherwise reproduced upon each bond. The delivery of any bonds or coupons so executed at any time thereafter shall be valid although before the date of delivery any person or persons signing the bonds or coupons no longer hold office. The maturities of the bonds shall be so arranged that the total amount of principal and interest falling due in any year, together with principal and interest falling due in such year on all bonds theretofore issued and then outstanding, shall never exceed seventy percent of the amount of tax revenues estimated by the chief financial officer of the commission to be received in the calendar year in which the bonds are issued.

(4) Bonds issued pursuant to this Section shall constitute a borrowing solely upon the credit of the tax revenues received or to be received by the district and shall not constitute an indebtedness or pledge of the general credit of the city of Alexandria and shall not in any way constitute an indebtedness of the city of Alexandria, and the bonds shall contain a recital to that effect. No member of commission and no officer of the commission or any person executing the bonds shall have any personal liability on such bonds. Bonds issued hereunder shall be payable solely from and secured by an irrevocable pledge and dedication of such part of the tax revenues as may be pledged thereto by the commission in the resolution authorizing the issuance of the bonds. Any holder of any of such bonds or coupons attached thereto may enforce and compel performance of all duties required to be performed by the district as a result of issuing the bonds, including the resolution authorizing the issuance of the bonds, and may similarly enforce the collection of the tax securing the payment of such bonds. When any bonds shall have been issued pursuant to this Section, neither the legislature, the commission, the city of Alexandria, the governing authority of the city of Alexandria, nor any other authority shall discontinue or decrease the tax or permit the tax to be discontinued or decreased in anticipation of the collection of which such bonds have been issued or in any way make any change in the allocation and dedication of the proceeds of the tax which would diminish the amount of the tax revenues to be received by the commission until all of such bonds shall have been retired as to principal and interest, it being the intention hereof to vest in the holders of such bonds and coupons a contractual right under the provisions of this Section.

(5) In the resolution authorizing the issuance of the bonds, the commission may provide for the respective priorities of separate blocks, series, or issues of bonds issued hereunder and may provide for the issuance of additional bonds in the future on a parity therewith as may be specified in the resolution. In the absence of such provision, if more than one series of bonds is issued hereunder payable from the same tax revenues, priority of lien on such revenues shall be determined in accordance with the resolution authorizing any bonds; however, nothing herein shall vest in any holder of the bonds any right of lien or priority of any kind against any part of the tax revenues not pledged to the payment of the bonds by resolution adopted by a majority vote of the members of the commission. Any resolution of the commission authorized by this Subsection may contain such covenants with the future holder or holders of the bonds as to tax revenues, the disposition thereof, the issuance of future bonds, and such other pertinent matters as may be deemed necessary by the commission to assure the marketability of the bonds, provided such covenants are not inconsistent with the provisions of this Section. The resolution authorizing the issuance of bonds hereunder may contain such provisions to assure the enforcement, collection, and proper application of the tax revenues as the commission may

think proper and consistent with this Section, and when any bonds payable from the tax revenue shall have been issued, this Section, the resolution of the commission levying and authorizing collection of the tax, and the obligation of the commission to continue to levy, collect, and allocate the tax and to apply the revenues derived therefrom in accordance with such resolution of the commission shall be irrevocable until such bonds have been paid in full as to principal and interest and shall not be subject to amendment in any manner which would impair the rights of the holders from time to time of such bonds or which would in any way jeopardize the prompt payment of principal thereof or interest thereon.

(6) All bonds shall be advertised for sale at competitive or negotiated sale as determined by the commission; however, any negotiated sale of any bonds shall be approved by a resolution adopted by at least a majority of the of the members of the commission. Bonds issued pursuant to this Section may also be issued as provided for in Chapter 13 of Title 39 of the Louisiana Revised Statutes of 1950.

(7) The proceeds derived from the sale of bonds issued pursuant to this Section shall be used exclusively by the district for the purposes provided in this Section.

(8) The district, by resolution adopted by a majority vote of the members of the commission, shall direct that the bonds contain a recital certifying that the bond is authorized by and is issued in conformity with the requirements of the constitution and laws of the state. Such recital shall be deemed to be the authorized declaration of the district and to import that there is constitutional and statutory authority for issuing the bonds and imposing the tax, that all the proceedings are regular, that all acts, conditions, and things required to exist, happen, and be performed precedent to and in the issuance of the bonds and imposition of the tax have existed, happened, and been performed in due time, form, and the manner required by law, that the amount of the bonds together with all other indebtedness of the district does not exceed any limit or limits prescribed by the constitution or laws of the state and that the required notices have been regularly and duly given by publication in the manner required by law. If any bonds are issued containing the recital, it shall be conclusively presumed that the recital is true, and neither the district nor any taxpayer shall be permitted to question the validity or regularity of the bonds, obligations, or tax in any court or in any other action or proceeding.

(9) After the time within which the validity of the bonds may be contested has elapsed as provided hereafter, the bonds shall be registered with the secretary of state without charge and shall have endorsed thereon a legend stating that they are incontestable and are secured by a pledge and dedication of a tax authorized by this Section within the territorial limits of the district and that they were registered with the secretary of state on the date so registered, and the endorsement shall be signed by the secretary of state.

(10) All bonds issued pursuant to this Section and the interest thereon shall be exempt from all taxation in the state. The bonds issued pursuant to this Section shall be and are hereby declared to be legal and authorized investments for banks, savings banks, trust companies, building and loan associations, insurance companies, fiduciaries, trustees, and guardians. Such bonds shall be eligible to secure the deposit of any and all public funds of the state and any and all public funds of municipalities, parishes, school districts, or other political corporation or subdivision of the state. Such bonds shall be lawful and sufficient security for said deposits to the extent of the value.

(11) This Section shall be construed as cumulative authority for the exercise of the powers herein granted. The authority granted

herein to the district shall not be affected or limited by any other provision of any statute of this state, and no provision, publication, election, or right of referendum shall be required or afforded in the performance of any act herein authorized to be done, including the imposition, collection, and application of the tax and issuance of bonds, except as herein otherwise specifically provided. However, in order to accomplish the purposes provided for herein, the district is authorized to utilize all of the types of securities, devices, procedures, and methods of borrowing or securing provided for tax revenues as set forth in Title 39 of the Louisiana Revised Statutes of 1950 when issuing indebtedness and otherwise using the tax revenue provided for in this Section. The bonds may be issued, reissued, advertised, sold, secured, enhanced, refunded, defeased, or otherwise utilized, and the tax revenues may be used in any manner according to any procedure provided for in Title 39 of the Louisiana Revised Statutes for the district; however, such use must accomplish the purposes provided for in this Section. The commission shall constitute a public entity for purposes of Chapters 13, 13-A, 14, 14-A, 14-B, and 15-A of Title 39 of the Louisiana Revised Statutes of 1950, as amended, and in the event of a conflict with the provisions of this Section, the provisions of this Section shall control.

(12) Any bonds issued pursuant to this Section shall be considered negotiable in accordance with the commercial laws of Louisiana and shall not be invalid for any irregularity or defect in the proceedings for the issuance and sale thereof and shall be incontestable in the hands of bona fide purchasers or holders for value.

(13) The resolution of the commission authorizing the issuance of the bonds and pledging and dedicating tax revenues to the payment thereof shall be recorded in the mortgage records of Rapides Parish and shall be published in one issue of the official journal of the city of Alexandria, but it shall not be necessary to publish any exhibits to the resolution if they are available for public inspection and such fact is stated in the publication. Within thirty days after the date of publication, any person in interest may contest the legality of the tax levied and of the resolution of the commission, any provisions in the resolution made for the security and payment of the bonds to be issued pursuant thereto, and the validity of all other provisions and proceedings relating to the authorization and issuance of such bonds and the levy of the tax. If no action or proceeding is instituted within thirty days, no person shall have any cause of action to test the regularity, formality, legality, or effectiveness of the levy of the tax or of the resolution of the commission, any provisions of the bonds to be issued pursuant to thereto, the provisions for the security and payment of the bonds, and of the validity of all other provisions and proceedings relating to the authorization and issuance of the bonds and the levy of the tax for any cause whatsoever, and it shall be conclusively presumed that every legal requirement for the issuance of the bonds and the levy of the tax has been complied with and that the bonds and tax are legal. Thereafter, no court shall have authority to inquire into any such matters. Any action or proceeding instituted by such person in interest or by the commission shall be in accordance with the provisions of Part XVI of Chapter 32 of Title 13 of the Louisiana Revised Statutes of 1950.

(14) Until such time as the bonds authorized hereby are issued and the proceeds of the tax are required for debt service as set forth in this Section, or the substantial completion of the capital improvements to be funded by the bonds, the net proceeds of the tax after deduction of reasonable collection expenses shall be used by the district to fulfill its rights, duties, and authority under this Section and the ordinance of the governing authority of the city of Alexandria. The district may invest any or all of the net proceeds in the manner provided by law.

(15) Any pledge of tax revenues or other monies made by the commission shall be valid and binding from the time when the pledge is made. The tax revenues or monies so pledged and thereafter received by the commission shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the commission irrespective of whether such parties have notice thereof.

(16) The books of the district shall be audited by an independent certified public accountant annually, and the accountant shall make a written report of his audit to the commission and to the governing authority of the city of Alexandria. The books of the district shall be subject to audit by the legislative auditor in the manner provided by law.

J. The district shall dissolve and cease to exist one year after all bonds, notes, and other evidences of indebtedness of the district, including refunding bonds, are paid in full as to both principal and interest; however, in no event shall the district have an existence of less than three years.

K. This Section, being necessary for the welfare of the city of Alexandria and its residents, shall be liberally construed to effect the purposes thereof."

§250.3. Design-build contracts; qualification of bidders; public announcement procedures; letters of interest; selection of short list; bid proposals by competitors; technical review committee; selection and process of award

A. To qualify for a design-build contract with the department, a single legal entity shall possess professional engineering design capability or qualified construction contracting capability. The department's standard technical qualification requirements for firms providing professional engineering services as provided for in R.S. 48:290 shall apply to the components providing design services, and the standard contractor qualifications as provided for in R.S. 37:2150 through 2164 and the current rules and regulations of the State of Louisiana Licensing Board for Contractors shall apply to the component providing construction services utilized by the design-build firm, based upon the applicable categories for the specific project. All qualification requirements for each component shall be finalized by the department prior to the closing date for the submittal of letters of interest.

B.(1) A notice of intent to select a firm for design-build services and to request letters of interest and statements of qualifications from qualified firms or teams shall be distributed by the department through advertisement in the Daily Journal of Commerce, the Baton Rouge Advocate, by appearance on the Department of Transportation and Development's internet home page, and by other means to ensure adequate response including newspapers, trade journals, and other forms of media which may be appropriate for specialty services. All notices of intent shall be advertised a minimum of thirty days prior to the deadline for receipt of responses and shall contain a brief description of the project, the required scope of services, and sufficient information for design or construction firms to determine their interest and to enable them to submit a letter of interest and statement of qualifications. The department may re-advertise the notice of intent using additional media or publications in an attempt to solicit additional responses if the number of responses received by the department is inadequate.

(2)(a) The department may use a private design professional to develop the description of the project and the required scope of services; however, if the department uses a private design professional, the private design professional shall be selected in accordance with the provisions of R.S. 48:291(A).

(b) The description of the project and the required scope of services shall include design criteria, analyses, reports, and cost

estimates for the design-build project as prepared by a private design professional or the department.

(c) The department or the private design professional shall provide technical advice, construction review services, and professional expertise as needed throughout the design-build process.

(d) The design-build team shall include a registered design professional who shall be independent from the department's design professional and shall be named in the team's proposal and retained for the duration of the design-build project.

C. The department shall identify all required information in the notice of intent and in the standard response forms provided by the department. The notice of intent shall include statements of qualification by credential and experience of design team members for the areas of expertise specific to the project and statements of qualification by experience and resources of the construction team component. The completed response form and any other required information shall be transmitted to the department by the responding firm prior to the deadline to submit such forms and information as provided in the notice of intent. Any response failing to meet all of the requirements contained in the notice of intent shall not be considered by the department. False or misrepresented information furnished in response to a notice of intent shall be grounds for rejection by the department.

D.(1) A primary design-build evaluation committee, whose membership is provided for in R.S. 48:291(A), shall evaluate the responses to the notice of intent received by the department. The following general criteria used by the primary evaluation committee in evaluating responses to the notice of intent for design-build services shall apply to both the design entity and the construction entity of any responding firm or team:

(a) Experience of both the firm and of key personnel as related to the project under consideration.

(b) Past performance on department projects.

(c) Any project-specific criteria as may apply to project needs.

(2) The primary evaluation committee shall evaluate the responding firms or teams on the basis of the criteria set forth in this Subsection and shall select a short list of not less than three nor more than five of the highest rated firms. The selected firms shall be invited to submit a detailed technical and cost proposal for the design-build project. The primary evaluation committee may, at its discretion, be assisted by other department personnel but shall not consider recommendations by others in its evaluation of firms' qualifications.

E.(1) Depending upon the complexity of the project and the degree of flexibility towards the design or construction method, the specific requirements of the technical proposal shall be identified by the department to the firms making the short list by means of a "Scope of Services Package". Generally, the technical proposal shall include discussions of design strategy and preliminary design concepts, construction sequencing, technique, materials and methods, the estimated time for commencement and completion of all phases of work, and a lump sum cost for all services in fulfillment of the requirements and within the constraints of the "Scope of Services Package".

(2) For more complex projects and projects with scopes which permit flexibility and innovation in the design and construction approach, the department shall compensate all short list firms for the expense of preparing the technical proposal. The amount of

compensation paid for the technical proposal shall be predetermined by the department and shall be revealed to the firm at the time the firm is notified of its selection to the short list.

F. The technical review committee shall include representatives from the construction, road design, bridge design, and planning divisions of the department. With the approval of the chief engineer, the technical review committee shall assign a project manager, who will become a member of the technical review committee for the project. The technical review committee, including the project manager, shall identify specific technical elements of the project, depending on the characteristics of the project, to be included in the technical score. Additionally, the technical review committee shall, with the approval of the chief engineer, select additional committee members to score each technical element of the project. Members of the technical review committee shall not have served as members of the primary evaluation committee. Each member of the technical review committee shall make his scoring of assigned elements available for public review. Such scores shall be considered public record.

G.(1) An adjusted score approach shall be used by the department in determining the winning proposal. An adjusted score shall be determined using the following three components:

(a) The technical score determined by the technical review committee. Weighing factors may be assigned to each element depending on its relative magnitude or significance to the overall project. Each technical review committee member shall rate his assigned element for the proposal from each of the firms on the short list and shall submit such scores to the chairman of the technical review committee. The price bid shall not be made known to the technical review committee during the scoring process. The chairman of the technical review committee shall adjust the scores for any applicable weighing factors and shall determine the total technical score for each proposal.

(b) The time value, consisting of the product of the proposed contract time expressed in days and the value-per-day expressed in dollars established by the department and included in the "Scope of Services Package". The design-build process shall normally include a bid adjustment for the value of time based on the firm's proposed number of days to complete the project multiplied by the value-per-day established by the department. This adjustment shall be used for selection purposes and shall not affect the department's liquidated damages schedule or constitute an incentive or disincentive to the contract.

(c) The price proposal.

(2) The adjusted score shall be the sum of the time value and price proposal divided by the technical score. The winning proposal shall be the proposal with the lowest adjusted score. The adjusted score for each technical proposal shall be determined by the following formula: Adjusted Score = (Price Bid + Time Value) divided by Technical Score. If the Time Value is not used, the Adjusted Score shall be determined by the following formula: Adjusted Score = Price Bid divided by Technical Score.

Section 2. R.S. 48:250.2(B) is hereby repealed in its entirety."

D. Revenue bonds. The district may issue revenue bonds payable from revenues generated by economic development projects with a pledge and dedication of up to the full amount of sales tax increments annually to be used as a guaranty of any shortfall, or at the option of the district, payable solely from an irrevocable pledge and dedication of up to the full amount of sales tax increments, in an amount to be determined by the district, to finance or refinance all or any part of an economic development project as specified in Subsection P of this Section. For purposes of this Section, a sales tax increment shall consist of that portion of the designated sales tax, hereinafter defined, collected each year on the sale at retail, the use, the lease or rental, the consumption and storage for use or consumption of tangible personal property, and on sales of services, all as defined in R.S. 47:301 et seq., or any other appropriate provision or provisions of law as amended, from taxpayers located within an economic development area which exceeds the sales tax revenues of the designated sales tax that were collected in the year immediately prior to the year in which the area was designated as an economic development area. Dedication of sales tax increments to pay the revenue bonds shall not impair existing obligations and shall not include tax revenues previously dedicated for a special purpose, nor revenues of any sales taxes collected by the state of Louisiana or any political subdivision other than the district.

E. Economic development area. At such time as the district proposes to issue revenue bonds pursuant to this Section, it shall designate the boundaries of the economic development area, hereinafter called the "sales tax area", from which sales tax increments are to be pledged and dedicated to the payment of the revenue bonds. Prior to designating the boundaries of the sales tax area, a notice describing the boundaries of the proposed sales tax area or containing a map showing the boundaries thereof shall be published two times in the official journal of the city of New Orleans.

F. Sales tax dedication. After the designation of the boundaries of the sales tax area, the district shall designate the local sales taxes which are to be used in determining the sales tax increments and the initial annual baseline collection rate for the sales tax area, which shall be the amount of such designated sales taxes collected in the sales tax area in the fiscal year of the district most recently completed prior to the establishment of the sales tax area. In addition, a monthly baseline collection rate shall be determined by dividing the initial annual baseline collection rate by twelve. The initial annual baseline collection rate and the monthly baseline collection rate shall be certified by the chief financial officer or equivalent of the district. The certification shall also be published one time in the official journal of the city of New Orleans. If the amounts of the initial annual baseline collection rate and the monthly baseline collection rate are not contested within thirty days after the said publication, then such amounts shall be conclusively presumed to be valid, and no court shall have any jurisdiction to alter or invalidate the designation of the amount of either the initial annual baseline collection rate or the monthly baseline collection rate.

G. Pledged sales taxes. The increment of the designated sales taxes which are to be pledged and dedicated to the payment of the revenue bonds shall be the amount of the designated sales taxes which are collected in the sales tax area each year in excess of the initial annual baseline collection rate. Such pledged sales tax increment may include all or any portion of the said excess, as may be determined by the district issuing the revenue bonds.

H. Payment. All sales tax increment revenue bonds issued hereunder shall be payable semiannually as to interest and annually

as to principal and may be issued in series from time to time on a parity with any other revenue bonds issued by the district and payable from the same pledged sales tax increment. Upon the issuance of the revenue bonds, the district shall establish a sinking fund to be used to accumulate monies for the payment of principal and interest on the revenue bonds and a debt service reserve fund in such amount as may be deemed necessary by the district to allow the revenue bonds to be marketed at reasonable interest rates. The sinking fund and reserve fund shall be established and maintained for as long as the revenue bonds are outstanding with a bank or trust company located in the state, pursuant to a written trust agreement between the district and the bank or trust company.

I. Maturity. The maturities of the revenue bonds shall be arranged in such a manner that the total amount of principal and interest falling due in any calendar year shall never exceed seventy-five percent of the amount of the pledged sales tax increment estimated by the governing authority of the district to be received in the first full calendar year after the economic development project has been completed.

J. Notice. Upon the issuance of revenue bonds payable from or backed by the pledged sales tax increment, the district shall provide notice thereof to the collector of any local sales taxes included in the designated sales taxes and shall provide the collector with a schedule showing the annual debt service requirements on the revenue bonds and a schedule showing the monthly sinking fund payment for each month during which the revenue bonds are to be outstanding. The monthly sinking fund payment for each month shall be an amount equal to one-sixth of the interest payable on the revenue bonds on the next succeeding interest payment date and one-twelfth of the principal of the revenue bonds maturing on the next succeeding principal payment date, together with any adjustments to the account for a period before the interest payment which is not equal to six months or a period before the first principal payment which is not equal to twelve months.

K. Collector. Not later than the twentieth day of each calendar month, the collector of any local sales taxes included in the designated sales taxes shall determine the amount of the revenues of the designated sales taxes in the sales tax area collected during the preceding calendar month in excess of the monthly baseline collection rate, and the portion of such excess that constitutes the pledged sales tax increment, and shall transfer a ratable amount equal to the lesser of the monthly sinking fund payment or the pledged sales tax increment to the sinking fund. In the event that the pledged sales tax increment for any month is less than the monthly sinking fund payment for such month, then any shortfall shall be made up in subsequent months to the extent that incremental revenues are available for that purpose. After each annual principal payment, the district shall use excess monies in the sinking fund, if any, as a credit against monthly sinking fund deposits in the next year or to prepay or purchase or for the defeasance of outstanding bonds.

L. Shortfalls. Notwithstanding any other provisions of this Chapter, in the event the district pledges sales tax increments to be used as a guaranty of any shortfall existing from any other revenues pledged to secure revenue bonds issued under authority of this Section, such sales tax increments shall be deposited, not into a sinking fund, but into a debt service reserve fund, on the same basis and with the same frequency described in Subsections F and G of this Section only until amounts in the debt service reserve fund equal three years of the average principal and interest due on the bonds for the term of the bonds. After funding the debt service reserve fund to the level stated, and for so long as the debt service reserve fund remains funded at that level, the collector of local sales taxes shall treat any sales tax increments collected in the same manner as any other sales tax collected. If the debt service reserve fund has fallen

below the stated amount, the collector shall, to the extent possible, transfer sales tax increments collected to the debt service reserve fund, in order to maintain such fund at the appropriate level. After payment in full of any bonds secured by a pledge of sales tax increments to be used to guaranty any shortfall existing from any other revenues pledged to secure bonds, any amounts remaining in the debt service reserve fund shall be transferred to the district and be deposited in a special fund to be created and used to promote other economic development opportunities.

M. Additional powers. The powers and rights conferred by this Section shall be in addition to the powers and rights conferred by any other general or special law. This Section, and any provisions of this Chapter not inconsistent therewith, does and shall be construed to provide a complete and additional method for the issuance of revenue bonds secured by a pledge of sales tax increments. No election, proceeding, notice, or approval shall be required for the issuance of any revenue bonds secured by a pledge of sales tax increments except as provided herein. The provisions of this Section shall be liberally construed for the accomplishment of its purposes.

N. District powers. The district may propose to carry out the purposes of this Chapter without the necessity of creating and organizing an economic development corporation and shall have all of the powers, rights, duties, and obligations of such a corporation under this Chapter and may do any act or take any action which such a corporation is authorized to do under this Chapter. However, the requirements of R.S. 33:9023 through 9026 shall not be deemed to apply.

O. Publication. A copy of the instrument authorizing the issuance of bonds hereunder shall be published immediately after its adoption in one issue of the official journal of the city of New Orleans. For thirty days after the date of publication, any person in interest may contest the legality of such document, any provision of the bonds, the provisions therein made for the security and payment of the bonds, and validity of all other provisions and proceedings relating to the authorization and issuance of the bonds. After the expiration of such period, no person may contest the regularity, formality, legality, or effectiveness of the document, any provisions of the bonds to be issued pursuant thereto, the provisions for the security and payment of the bonds, and the validity of all other provisions and proceedings relating to their authorization and issuance, for any cause whatever. Thereafter, it shall be conclusively presumed that the bonds, the legal documents providing for the bonds, and all security for the bonds is legal and that every legal requirement for the issuance of the bonds has been complied with. No court shall have authority to inquire into any of these matters after the aforementioned publication period.

P. Economic development projects. For the purposes of this Section, the term "economic development project" shall mean and include, without limitation, any and all projects suitable to any industry determined by the district or, as appropriate, the issuers of revenue bonds, to create economic development. Economic development projects shall include, without limitation, the following industries:

- (1) Industrial, manufacturing, and other related industries.
- (2) Housing and related industries.
- (3) Hotel, motel, and related industries.
- (4) Commercial, retail, and related industries.
- (5) Amusement, places of entertainment, theme parks, and any other tourism-related industry.

(6) Transportation-related industries.

(7) Hospital, medical, health, nursery care, nursing care, clinical, ambulance, laboratory, and related industries.

(8) Any other industry determined by the district or issuer of revenue bonds, as appropriate, whose assistance will result in economic development."
