"For the purposes of encouraging positive youth development, diversion of youth from the criminal justice system, reduction in commitments of youth to state institutions, promoting efficiency and economy in the delivery of youth services, and providing community response to the growing rate of juvenile delinquency, the legislature authorizes a program of state subsidies to assist parishes, on a voluntary basis, in the development, implementation, and operation of comprehensive, community-based youth service programs. These programs may include, but are not limited to, diversion, alternatives to home displacement, alternatives to incarceration, and coordination of youth services at the parish level.

A. The purpose of the children and youth planning boards is to assist in the assessment, alignment, coordination, prioritization, and measurement of all available services and programs that address the needs of children and youth. This includes children and youth at risk for, or identified with, social, emotional, or developmental problems, including, but not limited to educational failure, abuse, neglect, exposure to violence, juvenile or parental mental illness, juvenile or parental substance abuse, poverty, developmental disabilities and delinquency. The boards are intended to encourage collaborative efforts among local stakeholders for assessing the physical, social, behavioral, and educational needs of children and youth in their respective communities and for assisting in the development of comprehensive plans to address such needs. The infrastructure for planning is intended to be data-driven in order to select appropriate evidence-based programs which will maximize available resources.

B. The legislature authorizes the establishment of children and youth planning boards to assist in the development, implementation, and operation of services which encourage positive development, diversion of children and youth from the criminal justice and the foster care system, reduction in the commitments of youth to state institutions, and providing community response to the growing rate of juvenile delinquency. The coordination and implementation of services shall include, but are not limited to prevention, early intervention, diversion, alternatives to home displacement, alternatives to incarceration, and treatment services. Through such boards, the state intends to foster and promote a continuum of community-based services and systems reflecting service integration at the state and community or local levels.

C. The role of the Children's Cabinet shall be to facilitate the creation of children and youth planning boards by offering guidance and technical assistance to local communities and governing authorities including, but not limited to resource identification, needs assessments, monitoring and performance evaluation, strategic planning and other forms of assistance and support."

~~"There shall be a children and youth planning board created and established in each judicial district by enactment of appropriate resolutions by the governing authority of each parish in that district. The board shall provide for the preparation of a comprehensive plan for the development, implementation, and operation of services for children and youth. Nothing herein shall mandate a parish governing authority to fund the operational expenses of the board."~~

~~D. The Youth Services Advisory Board shall actively participate in the formulation of the comprehensive plan for the development, implementation, and operation of the youth services program and shall make formal recommendation to the parish governing authority or joint parish governing authorities at least annually concerning the comprehensive plan and its implementation during the ensuing year.~~

~~F. The board shall promulgate and implement rules concerning attendance of members at board meetings. The members may also elect their own officers.~~

A. Each planning board shall consist of a minimum of eleven, but not more than twenty-five members. C. (1) The children and youth planning boards shall actively participate in the formulation of a comprehensive plan for the development, implementation, and operation of services for children and youth and make formal recommendations to the parish governing authority or joint parish governing authorities at least annually concerning the comprehensive plan and its implementation during the ensuing year.

(2) In its formulation of the comprehensive plan, the children and youth planning boards shall do all of the following, but shall not be limited to the following:

(a) Identify all resources available to meet the needs of children and youth by comprehensively examining resources and services that target children and youth. These services may include, but are not limited to prevention, early intervention, education, and treatment.

(b) Assess the needs of children and youth in the local community, incorporating reliable data sources.

(c) Develop and select the appropriate evidence-based strategies or programs to meet those needs identified by soliciting community input and developing a strategic plan to best address the needs of children and youth in the respective community. This strategic plan should have measurable goals and objectives and should be evaluated annually to ensure its effectiveness.

(d) Collaborate with schools, law enforcement, judicial system, health care providers, and others to ensure goals and treatment needs are being met.

(e) Ensure effective delivery of prevention programs in the community through training, technical assistance, monitoring, and evaluation to ensure effective outcomes are achieved.
