(7)

(a) Rates for federally defined individuals. (i) Subject to approval by the Department of Insurance, the plan shall determine a standard risk rate for each coverage option offered by considering the premium rates charged by other insurers offering similar health insurance coverage to individuals and family groups. The standard risk rate shall be established using reasonable actuarial techniques and shall reflect anticipated experience and expenses for such coverage. Subject to the limits provided in this Paragraph, initial rates for each plan year shall be established to provide fully for the expected costs of claims including recovery of prior losses, expenses of operation, investment income of claim reserves, and any other cost factors subject to the limitations described herein, provided such rates shall not exceed two hundred percent of rates applicable to individual standard risks. Upon the receipt of governmental appropriations or alternative funding sources, other than assessments under R.S. 22:239.1, such as authorized service charges, governmental transfer payments, donations or grants, the board shall be authorized to reduce rates for the plan year based on established actuarial and underwriting practices. In no event shall rates for plan coverage be less than the greater of one hundred twenty-five percent of rates established as applicable for individual standard risks or rates established for other individuals provided coverage by or through the plan unless such rates would exceed the maximum amount allowed under this Paragraph. In no instance shall the rates discriminate between covered individuals on the basis of health-related factors.

(ii) Notwithstanding any other provision of this Part to the contrary, for persons eligible under a federal waiver pursuant to R.S. 22:239.1, such as authorized service charges, governmental transfer payments, donations or grants, the board shall be authorized to reduce rates for the plan year based on established actuarial and underwriting practices. In no event shall rates for plan coverage be less than the greater of one hundred twenty-five percent of rates established as applicable for individual standard risks or rates established for other individuals provided coverage by or through the plan unless such rates would exceed the maximum amount allowed under this Paragraph. In no instance shall the rates discriminate between covered individuals on the basis of health-related factors.

(b) Rates for other individuals. (i) Rates shall not be unreasonable in relation to the coverage provided, the risk experience, and expenses of providing the coverage. Rates and rate schedules may be adjusted for appropriate risk factors such as age and area variation in claim cost and shall take into consideration appropriate risk factors in accordance with established actuarial and underwriting practices. In no instance shall the rates discriminate between covered individuals on the basis of health-related factors.

(ii) Notwithstanding any other provision of this Part to the contrary, for persons eligible under a federal waiver pursuant to R.S. 22:239.1, such as authorized service charges, governmental transfer payments, donations or grants, the board shall be authorized to reduce rates for the plan year based on established actuarial and underwriting practices.
