§766. Declaration of a state of public health emergency

* * *

G. Providing for promulgation of rules and protocol for the evacuation or sheltering in place of nursing homes in the event of an oncoming hurricane.

(1) The Department of Health and Hospitals, in consultation with the Governor's Office of Homeland Security and Emergency Preparedness, shall promulgate rules by April 1, 2007, pursuant to the Administrative Procedure Act, which provide criteria for evacuation of nursing homes or sheltering in place during a hurricane. In promulgating such rules, the Department of Health and Hospitals shall consider distinct properties and characteristics of locales including but not limited to drainage, elevation and canals, site specific surveys of nursing homes, storm surge, and the forecasted severity of the hurricane. Nothing herein shall relieve a nursing home of the duties, responsibilities, and obligations set forth in R.S. 40:2009.25, or set forth in any law, standard, rule, or regulation.

(2) If a nursing home determines that it should evacuate, and the nursing home has residents with medically complex conditions who are unable to be transported for which the nursing home is unable to find satisfactory placement, the Department of Health and Hospitals shall assist such nursing homes to arrange placement of those residents in nearby hospitals or assist the nursing homes with other arrangements for their safekeeping, including sheltering in place. In the event such space is not available, the Department of Health and Hospitals shall transmit the request for assistance to the Federal Emergency Management Agency or its successor. For purposes of this Subsection, residents with medically complex conditions shall be defined as those residents who:

(a) Are receiving any of the following care and services:

(i) Tracheotomy or respirator care.

(ii) Stage III or IV decubitus ulcer care.

(iii) Kidney dialysis.

(iv) Intravenous therapy.

(v) Comatose care.

(vi) Other care and services as provided for in promulgated rules; and

(b) Are likely to significantly deteriorate during an evacuation.

(3) If a nursing home determines that it should evacuate and is unable to proceed to its sheltering host site required under R.S. 40:2009.25, the nursing home or the Louisiana Nursing Home Association shall notify the Department of Social Services in its capacity as Emergency Support Function 6 primary lead agency and request assistance in identifying available shelter sites that best meet the needs of the resident. The state shall attempt to assist the nursing home in locating shelter space to the best of its ability based on available shelter space and in lieu thereof shall transmit the request to the Federal Emergency Management Agency or its successor.

(4) If a nursing home determines that it should evacuate and encounters problems with obtaining transportation from its transportation service provider required under R.S. 40:2009.25, the nursing home shall notify its local or parish office of homeland security and emergency preparedness and ask for assistance with transportation. If the local or parish office of homeland security and emergency preparedness is unable to assist the nursing home in obtaining transportation, the local or parish office of homeland security and emergency preparedness shall notify the Governor's Office of Homeland Security and Emergency Preparedness which shall task the request to the appropriate emergency support function. The state shall attempt to secure transportation to the best of its ability based on available transportation assets and in lieu thereof shall transmit the request to the Federal Emergency Management Agency or its successor.

(5) Nursing homes required to participate in a mandatory evacuation as directed by the appropriate parish or state official or which act as host shelter sites shall submit their costs directly related to the evacuation and temporary sheltering of their residents to the Department of Health and Hospitals. The Department of Health and Hospitals shall seek reimbursement on behalf of the nursing homes from Federal Emergency Management Administration or its successor to the extent such costs are reimbursable under the Stafford Act or the regulations promulgated thereunder. Nursing homes shall provide documentation of these costs to the Department of Health and Hospitals. The state shall not be liable or otherwise responsible unless there has been a change to the state Medicaid plan approved by the Center for Medicare and Medicaid Services that provides for facility specific reimbursement for documented and allowable costs of evacuation or sheltering, for reimbursement to a nursing home for any cost incurred by the nursing home for evacuation and sheltering of the nursing home's residents. The secretary of the Department of Health and Hospitals shall submit a Medicaid state plan amendment that provides for the facility specific reimbursement for documented and allowable costs of evacuation or sheltering of a Medicaid certified nursing home's residents to the Centers for Medicare and Medicaid Services no later than January 1, 2007. The state shall be reimbursed by any nursing home for all costs incurred by the state for the evacuation and sheltering of the nursing home's residents less any reimbursement received by the state from other sources for purposes of evacuating and sheltering said nursing home's residents.

(6) Nothing herein shall preclude a nursing home from giving notice of the impending evacuation to local next of kin who have previously stated that they would recover the nursing home resident and assume responsibility for their care in the event of an evacuation."
