E. The office shall either directly or through authorized assignment to another state agency or department:

\* \* \*

(20)(a) In consultation with experts in the fields of animal sheltering, veterinary medicine, public health and safety, and other professional and technical personnel deemed appropriate, formulate emergency operation plans for the humane evacuation, transport, and temporary sheltering of service animals and household pets in times of emergency or disaster that:

(i) Require that persons with disabilities who utilize service animals are evacuated, transported, and sheltered with those service animals and inform all facilities that provide shelter to persons with disabilities who are accompanied by their service animals of their legal obligation to provide shelter to both the disabled person and the service animal.

(ii)(aa) Identify or establish, as the case may be, evacuation shelters that are in close proximity to a human sheltering facility designed and equipped to accept and temporarily house the household pets of evacuees and canine search and rescue teams.

(bb) Develop guidelines for such "side by side" shelters which may include standards or criteria for admission to such shelters, health and safety standards, basic minimum animal care standards regarding nutrition, space, hygiene, and medical needs, protocols, and procedures for ensuring adequate sheltering, management, and veterinary staffing for such shelters.

(iii)(aa) Enable, wherever possible, pet and pet-owner evacuations for disabled, elderly, special needs residents, and all other residents whenever such evacuations can be accomplished without endangering human life.

(bb) The office shall establish an identification system to ensure that household pet owners who are separated from their household pets during an evacuation are provided with all information necessary to locate and reclaim such household pet. In establishing such identification system, a tracking number system shall be developed with one number being used exclusively and consistently in association with and for the same household pet until such time as the household pet is reunited with its owner.

(iv) Allow household pets in cages or carriers that safely and securely confine such pets and are specifically designed for the containment and transport of such pets to utilize public transportation during an impending disaster, when doing so does not endanger human life. If such pets are not allowed to use public transportation, the primary agency designated under the provisions of R.S. 29:729(E)(13)(b)(i) and (ii) is authorized to provide separate transportation for these pets to the shelter in closest proximity to the human sheltering facility in which the animal's owner or custodian will be temporarily housed when such location is known. The office shall, in consultation with the primary agency designated under the provisions of R.S. 29:729(E)(13)(b)(i) and (ii) and other appropriate agencies, develop plans to address the evacuation, transportation, and other needs of those household pets that are not evacuated or transported pursuant to this Item.

(v) Require animal shelters, humane societies, veterinary offices, boarding kennels, breeders, grooming facilities, hospitals, schools, animal testing facilities, and any other businesses or not-for-profit agencies that normally house household pets or service animals to create evacuation plans for such animals consistent with the provisions of this Paragraph. Such plans shall be made available to the public upon request and shall be filed annually with the Department of Agriculture and Forestry, office of animal health services, and with their respective parish office of homeland security and emergency preparedness.

(vi) Implement a public information program to provide guidance to household pet owners in formulating their own evacuation plans for their household pets and service animals, inform such pet owners of the resources available to assist them in such evacuations, and apprise such pet owners of the location, admission criteria, and other relevant guidelines for the shelters in their area that accept household pets.

(vii) Ensure the primary agency designated under the provisions of R.S. 29:729(E)(13)(b)(i) and (ii) is included in emergency preparedness exercises conducted or arranged through the state or parish government, and that animal rescue, evacuation, and sheltering needs of residents with pets are made a part of those exercises.

(b) In creating disaster operation plans for household pets and service animals, the office shall consult with each agency designated by each parish homeland security and emergency preparedness agency to provide evacuation, transportation, and sheltering functions as provided for in R.S. 29:729(E)(13) and shall identify and make available to the public the name and location of facilities that provide temporary sheltering for household pets.

(i) Require that persons with disabilities who utilize service animals are evacuated, transported, and sheltered with those service animals and inform all facilities that provide shelter to persons with disabilities who are accompanied by their service animals of their legal obligation to provide shelter to both the disabled person and the service animal.

(ii)(aa) Identify or establish, as the case may be, in conjunction with the state office of homeland security and emergency preparedness, evacuation shelters that are in close proximity to a human sheltering facility designed and equipped to accept and temporarily house the household pets of evacuees and canine search and rescue teams.

(bb) Develop guidelines for such "side by side" shelters which may include standards or criteria for admission to such shelters, health and safety standards, basic minimum animal care standards regarding nutrition, space, hygiene, and medical needs, protocols, and procedures for ensuring adequate sheltering, management, and veterinary staffing for such shelters.

(iii)(aa) Enable, wherever possible, pet and pet-owner evacuations for disabled, elderly, special needs residents, and all other residents whenever such evacuations can be accomplished without endangering human life.

(iv) Allow household pets in cages or carriers that safely and securely confine such pets and are specifically designed for the containment and transport of such pets to utilize public transportation during an impending disaster, when doing so does not endanger human life. Such plans shall be made available to the public upon request and shall be filed annually with the Department of Agriculture and Forestry, office of animal health services, and with their respective parish homeland security and emergency preparedness agency.

(vii) Implement a public information program to provide guidance to household pet owners in formulating their own evacuation plans for their household pets and service animals, inform such pet owners of the resources available to assist them in such evacuations, and apprise such pet owners of the location, admission criteria, and other relevant guidelines for shelters in their area that accept household pets.

(viii) Ensure the primary agency designated under the provisions of Items (b)(i) and (ii) of this Paragraph are included in emergency preparedness exercises conducted or arranged through the state or parish government, and that animal rescue, evacuation, and sheltering needs of residents with pets are made a part of those exercises.

(b)(i) In creating emergency operation plans pursuant to this Paragraph, the parish office of homeland security and emergency preparedness may delegate any or all of the evacuation, transportation, sheltering, or other functions delineated herein to the agency with authority over animal control or animal related issues in that parish which shall serve as the primary department or local entity, provided that such primary department or local entity may delegate any or all such functions to public or private agencies with expertise in the areas of animal control, animal sheltering, or animal care.

(ii) Any parish office of homeland security and emergency preparedness that chooses to designate a local parish department or local entity as the primary department or entity authorized to coordinate and provide for the evacuation, transportation, or sheltering of household pets and service animals shall provide written notification to the Department of Agriculture and Forestry and the state office of homeland security and emergency preparedness as to the primary department's or entity's physical location and contact information.
