§2792. Definitions

As used in this Part, the term "parish" shall mean any parish that is eligible to and makes new certified public expenditures.

§2793. Parish cooperative endeavors for health care

Any parish and its parish health care providers are hereby authorized to enter into one or more cooperative endeavor agreements with health care providers in the parish for the purpose of enhancing the provision of health care services for uninsured and Medicaid patients. Payment under such agreements shall not exceed the maximum allowed by CMS for programs involving certified public expenditures.

Any parish or parish health care provider may certify any and all eligible public health care expenditures to the department. The department shall use certified public expenditures from the parish or parish health care providers within the state's Medicaid program to acquire additional federal financial participation. §2796. State limitation on disproportionate share payments

A. The provisions of this Part shall be operable only to the extent that the state has not exceeded the limit on total disproportionate share payments after making every reasonable effort to use appropriate Medicaid payment methodologies in lieu thereof.

B. In the event that the total payments of all plans approved pursuant to this Part exceed that limit, the plans of all parishes with approved plans shall be ranked according to total eligible losses of the public hospitals in the parish, and those plans shall be funded according to that ranking, with the parish with the greatest total eligible losses fully funded first, followed by the parish with the next greatest total eligible losses, and so forth.
