The legislature finds that society has a responsibility to protect children from abuse and neglect. Provision of independent counsel for abused and neglected children is an essential due process right provided by Louisiana law to ensure sound and fair decisionmaking concerning children's safety, permanency, and well-being. Counsel providing representation in child protection proceedings should have specialized knowledge and skills essential for effective representation, and should participate in multidisciplinary interaction together with other professionals involved with the child, including interdisciplinary communication, investigation, discovery, meetings, conferences, proceedings, and administrative hearings. Resources to support the provision of legal representation of children should be used efficiently and equitably to assure qualified representation throughout the state."

On motion of Rep. Schroder, the amendments were adopted.

Rep. Schroder moved the final passage of the bill, as amended.

§1204. State soil and water conservation committee commission

A.(1)(a) There is hereby established, to serve as an agency of the state and to perform the functions conferred upon it in this Part, a state soil and water conservation committee commission. The committee commission shall consist of eight members. The members shall be elected by a majority of the votes cast at the state convention. There shall be elected one alternate for each such member, who shall be elected from the same area and shall possess the same qualifications as the member for whom he is elected as an alternate. The alternate elected from any area shall serve in the place of the member elected from such area in the event of his absence or inability to serve. The alternate shall be paid the same per diem and expenses as a member. A vacancy in the position of alternate shall be filled as provided by law for members.

(2)(a) The members of the state soil and water conservation committee commission created by law prior to August 1, 1956, shall continue to serve as a state soil and water conservation committee commission until the new members of the state soil and water conservation committee commission are elected and qualify as hereinafter provided.

(b) Within forty-five days after August 1, 1956, the chairman of the old state soil and water conservation committee commission shall notify the soil and water conservation district supervisors within the state of the time and place that an election is to be held as hereinafter provided.

(c) A meeting of each board of soil and water conservation district supervisors shall be held within thirty days after receiving notice of the state convention. The majority of the members of the board of district supervisors shall constitute a quorum and at such meeting, the board of district supervisors shall elect one of its members as a delegate to attend a state convention, at the time and place specified in the notice given by the chairman of the old state soil and water conservation committee commission. Each such elected delegate shall have one vote at the state convention. Each state area at the state convention shall elect one of its members as a member of the state soil and water conservation committee commission to represent that area. Each member elected as a member of the state soil and water conservation committee commission shall be a landowner or operator actively engaged in farming or animal husbandry within the district and area he represents and shall be a qualified voter in that district. He shall be elected as a member of the state soil and water conservation committee commission by a majority of the votes cast at the state convention. The chairman of the convention shall within ten days

certify to the old state soil and water conservation committee commission and to the secretary of state the name and address of the person so elected as a member of the new state soil and water conservation committee commission. Each member of the committee commission shall take the state constitutional oath of office and qualify within thirty days after this election. Within thirty days after the election and qualification of the five members, the commissioner of agriculture and forestry of the state of Louisiana shall call a meeting of the entire committee commission, at which time one of the said members provided for herein shall be elected chairman of the state soil and water conservation committee commission, another member shall be elected vice chairman, and a third member secretary-treasurer. The terms of the five members of the state soil and water conservation committee commission elected under this Section shall be as follows:

The members from State Area Nos. 1 and 2 shall serve for one year;

The members from State Area Nos. 3 and 4 shall serve for two years;

The members from State Area No. 5 shall serve for three years.

Thereafter, each member shall serve for a period of three years after his election and shall be removed only for cause. In the event of a vacancy, the vacancy shall be filled by the state committee commission until the next convention, and then by election in the same manner, as outlined, for the unexpired term. An elected member of the committee commission shall not qualify for reelection unless he shall have attended at least sixty-six and two-thirds percent of the scheduled committee commission meetings during his tenure; however, upon a showing of good cause this condition may be waived by resolution duly adopted by the state soil and water conservation committee commission.

(3) The committee commission shall keep a record of its official actions and may perform such acts, hold such public hearings, and promulgate such rules and regulations as may be necessary for the execution of its functions under this Part.

B. The State Soil and Water Conservation Committee Commission shall employ a director and an assistant director who shall be appointed by the committee commission subject to the approval of the commissioner of agriculture and forestry. The director and the assistant director shall be in the unclassified service. The commissioner may employ such other personnel of the committee commission as he deems appropriate. All employees of the committee commission shall be under the direction and supervision of the commissioner. The committee commission may call upon the attorney general of the state for such legal services as it may require or may employ its own counsel and legal staff. It shall have authority to delegate to its chairman, to one or more of its members, or to one or more agents or employees, such powers and duties as it may deem proper. It shall be furnished the necessary supplies and equipment for the committee commission's work. It shall have the authority to locate its office at a place to be selected by the committee commission. Upon request of the committee commission, for the purpose of carrying out any of its functions, the supervising officer of any state agency, or of any state institution of learning, shall insofar as may be possible under available appropriations, and having due regard to the needs of the agency to which the request is directed, assign or detail to the committee commission members of the staff or personnel of such agency or institution of learning, and make such special report, surveys, or studies as the committee commission may request.

C. (1) The committee commission annually shall elect a chairman, vice chairman, and secretary-treasurer, each of whom shall serve for a period of one year from the date of his appointment or until his successor is elected and qualified. A member of the committee commission may serve concurrently as a soil and water conservation district supervisor, but he shall not be required to continue in office as a soil and water conservation district supervisor in order to be entitled to serve his full term as a member of the committee commission. A majority of the committee commission shall constitute a quorum, and the concurrence of a majority in any matter within their duties shall be required for its determination.

(2) The chairman and members of the committee commission shall receive a per diem of thirty-five dollars for each day or fraction thereof actually engaged in official work of the committee commission, provided such per diem allowance as to each member shall not exceed twenty days in any year. The chairman and members of the committee commission shall also be entitled to receive reimbursement for actual traveling expenses necessarily incurred in the performance of their duties of the committee commission, and only such members not otherwise compensated or paid from public funds shall be entitled to the per diem allowance.

(3) The committee commission shall provide for the execution of surety bonds for all employees and officers who shall be entrusted with funds or property; shall provide for the keeping of a full and accurate record of all proceedings and all resolutions, regulations, and orders issued or adopted; shall provide for an annual examination of the accounts of receipts and disbursements and an annual examination of all district accounts, and shall provide for a complete audit at least once every four years of the accounts of receipts and disbursements and all districts, all of which shall be performed by the audit and evaluation section of the Department of Agriculture and Forestry and filed with the legislative auditor.

D. In addition to the duties and powers hereinafter conferred upon the State Soil and Water Conservation Committee Commission, it shall have the following duties and powers:

* * *

(5) To recommend the inclusion in annual and longer term budgets and appropriation legislation of the state of Louisiana of funds necessary for appropriation by the legislature to finance the activities of the committee commission and soil and water conservation districts; to administer the provisions of any act hereafter enacted by the legislature appropriating funds for expenditure in connection with the activities of soil and water conservation districts; to distribute to soil and water conservation district funds, equipment, supplies, and services received by the committee commission for that purpose from any source, subject to such conditions as shall be made applicable thereto in any state or federal statute or local ordinance making available such funds, property, or services; to issue regulations establishing guidelines and suitable controls to govern the use by soil and water conservation districts of such funds, property, and services; and to review all budgets, administrative procedures, and operations of such districts and advise the districts concerning their conformance with applicable laws and regulations.

* * *

(7) To disseminate information throughout the state concerning the activities and programs of the soil and water conservation districts in areas where their organization is desirable; to make available information concerning the needs and the work of the soil and water conservation districts and the committee commission to the governor, the legislature, executive agencies of the government of this state, political subdivisions of this state, cooperating federal agencies, and the general public.

1308
interest of the public health, safety, and welfare, for a soil and water conservation district to function in the territory considered at the hearing, it shall make and record such determination, and shall define, by metes and bounds or by legal subdivisions, the boundaries of such district. In making such determinations and in defining such boundaries, the committee commission shall give due weight and consideration to the topography of the area considered and of the state, the composition of soils therein, the distribution of erosion, the prevailing land-use practice, the desirability and necessity of including within the boundaries the particular lands under consideration and the benefits such lands may receive from being included within such boundaries, the relation of the proposed area to existing watersheds and agricultural regions, and to other soil and water conservation districts already organized or proposed for organization under the provisions of this Part, and such other physical, geographical, and economic factors as are relevant, having due regard to the legislative determinations set forth in R.S. 3:1201. The territory to be included within such boundaries need not be contiguous. If the committee commission shall determine after such hearing and after due consideration of the said relevant facts, that there is no need for a soil and water conservation district to function in the territory considered at the hearing, it shall make and record such determination and shall deny the petition. After six months shall have expired from the date of the denial of any such petition, subsequent petitions covering the same or substantially the same territory may be filed as aforesaid and new hearings held and determinations made thereon.

C. After the committee commission has made and recorded a determination that there is need, in the interest of public health, safety, and welfare, for the organization of a district in a particular territory and has defined the boundaries thereof, it shall consider the question whether the operation of a district within such boundaries, with the powers conferred upon soil and water conservation districts in this Part, is administratively practicable and feasible. To assist the committee commission in the determination of such administrative practicability and feasibility, it shall be the duty of the committee commission, within reasonable time after entry of the finding that there is need for the organization of the proposed district and the determination of the boundaries thereof, to hold a referendum within the proposed district upon the proposition of the creation of the district, and to cause due notice of such referendum to be given. The question shall be submitted by ballots upon which there shall appear the words: "For creation of a soil and water conservation district of the lands below described and lying in the parish (or parishes) of __________" and "Against the creation of a soil and water conservation district of the lands below described and lying in the parish (or parishes) of __________", and "For __________ and __________" and "Against the creation of a soil and water conservation district of the lands below described and lying in the parish (or parishes) of __________ and __________". Such vote shall set forth the boundaries of such proposed district. The ballot shall set forth the boundaries of such proposed district. The ballot shall set forth the boundaries of such proposed district. The ballot shall set forth the boundaries of such proposed district. The ballot shall set forth the boundaries of such proposed district. The ballot shall set forth the boundaries of such proposed district. The ballot shall set forth the boundaries of such proposed district. The ballot shall set forth the boundaries of such proposed district. The ballot shall set forth the boundaries of such proposed district.

D. The committee commission shall pay all expenses for the issuance of such notices and the conduct of such hearings and referenda, and shall supervise the conduct of such hearings and referenda. It shall issue appropriate regulations governing the conduct of such hearings and referenda, and providing for the registration prior to the date of the referendum of all eligible voters, or prescribing some other appropriate procedure for the determination of those eligible as voters in such referendum. No informalities in the conduct of such referendum or in any matters relating thereto shall invalidate said referendum or the result thereof if notice thereof shall have been given substantially as herein provided and said referendum shall have been fairly conducted.
E. The **committee commission** shall publish the result of such referendum and shall thereafter consider and determine whether the operation of the district within the defined boundaries is administratively practicable and feasible. If the **committee commission** shall determine that the operation of such district is not administratively practicable and feasible, it shall record such determination and deny the petition. If the **committee commission** shall determine that the operation of such district is administratively practicable and feasible, it shall record such determination and shall proceed with the organization of the district in the manner hereinafter provided. In making such determination the **committee commission** shall give due regard and weight to the attitudes of the eligible voters within the defined boundaries, the number eligible to vote in such referendum who shall have voted, the proportion of the votes cast in such referendum in favor of the creation of the district to the total number of votes cast, the approximate wealth and income of land occupants of the proposed district, the probable expense of carrying on erosion-control operations within such district, and such other economic and social factors as may be relevant to such determination, having due regard to the legislative determinations set forth in R.S. 3:1201, provided, however, that the **committee commission** shall not have authority to determine that the operation of the proposed district within the defined boundaries is administratively practicable and feasible unless at least a majority of the votes cast in the referendum upon the proposition of the creation of the district shall have been cast in favor of the creation of such district.

F. If the **committee commission** shall determine that the operation of the proposed district within the defined boundaries is administratively practicable and feasible, it shall appoint two supervisors to act, with the three supervisors elected as provided in R.S. 3:1207, as the governing body of the district. Such district shall be a governmental subdivision of this state and a public body corporate and politic, upon the taking of the following proceedings:

The two appointed supervisors shall present to the secretary of state an application signed by them, which shall set forth (and such application need contain no detail other than the mere recitals):

1. that a petition for the creation of the district was filed with the state soil and water conservation **committee commission** pursuant to the provisions of this Part, and that the proceedings specified in this Part were taken pursuant to such petition; that the application is being filed in order to complete the organization of the district as a governmental subdivision and a public body, corporate and politic, under this Part; and that the **committee commission** has appointed them as supervisors;

2. the location of the principal office of the supervisors of the district.

The application shall be subscribed and sworn to by each of the said supervisors before an officer authorized by the laws of this state to take and certify oaths, who shall certify upon the application that he personally knows the supervisors and knows them to be the officers as affirmed in the application, and that each has subscribed thereto in the officer's presence. The application shall be accompanied by a statement by the state soil and water conservation **committee commission**, which shall certify and such statement need contain no detail other than the mere recitals, that a petition was filed, notice issued, and hearings held as aforesaid; that the **committee commission** did duly determine that there is need, in the interest of the public health, safety, and welfare, for a soil and water conservation district to function in the proposed territory and did define the boundaries thereof; that notice was given and a referendum held on the question of the creation of such district, and that the result of such referendum showed a majority of the votes cast in such referendum to be in favor of the creation of the district; that thereafter the **committee commission** did duly determine that the operation of the proposed district is administratively practicable and feasible. The said statement shall set forth the boundaries of the district as they have been defined by the **committee commission**.

The secretary of state shall examine the application and statement, and if he finds that the name proposed for the district is not identical with that of any other soil and water conservation district of this state or so nearly similar as to lead to confusion or uncertainty, he shall certify such fact to the state soil and water conservation **committee commission**, which shall thereupon submit to the secretary of state a new name for the said district, which shall not be subject to such defects. Upon receipt of such new name, free of such defects, the secretary of state shall record the application and statement, with the name so modified, in an appropriate book of record in his office. When the application and statement have been made, filed, and recorded, as herein provided, the district shall constitute a governmental subdivision of this state and a public body corporate and politic. The secretary of state shall make and issue to the said supervisors a certificate, under the seal of the state, of the due organization of said district, and shall record such certificate with the application and statement. The boundaries of such district shall include the territory as determined by the state soil and water conservation **committee commission** as aforesaid, but in no event shall they include any area included within the boundaries of another soil and water conservation district organized under the provisions of this Part.

G. After six months shall have expired from the date of entry of a determination by the state soil and water conservation **committee commission** that operation of a proposed district is not administratively practicable and feasible, and denial of a petition pursuant to such determination, subsequent petitions may be filed as aforesaid, and action taken thereon in accordance with the provisions of this Part.

H. Petitions for including additional territory within an existing district may be filed with the state soil and water conservation **committee commission**, and the proceedings herein provided for in the case of petitions to organize a district shall be observed in the case of petitions for such inclusion. The **committee commission** shall prescribe the form of such petitions, which shall be as nearly as may be in the form prescribed in this Part for petitions to organize a district. Where the total number of eligible voters in the area proposed for inclusion shall be less than twenty-five, the petition may be filed when signed by a majority of the eligible voters of such area. In referenda upon petitions for such inclusion, all owners of land within such area shall be eligible to vote. Only such landowners shall be eligible to vote.

I. Any district or districts organized under the provisions of this Part may be divided, or combined with any other district or districts, or divided and combined with any other district or districts in the following manner:

1. Twenty-five or more landowners of each district affected by the proposed division or combination shall sign and file with the **committee commission** a petition requesting that the district or districts, as the case may be, and the operations thereof, be divided or combined, or divided and combined, in the manner requested. The **committee commission** shall prescribe the form for such petitions, which shall be as nearly as may be in the form described in this Part for petitions to organize a district. The **committee commission** may
conduct such public meetings and public hearings upon such petition as may be necessary to assist it in the consideration thereof. The committee commission may define in more detail the boundaries outlined in the petitions for the districts proposed to result from the division or combination.

(2) Within sixty days after such petition has been filed with the committee commission, it shall give due notice of the holding of a referendum, and shall supervise and conduct such referendum, and issue appropriate regulations governing the conduct thereof. Each owner of land lying within the district or districts to be affected, and only such landowners shall be entitled to vote; and only such landowners shall be entitled to vote. The committee commission shall make provisions on the referendum for each landowner to vote (a) on whether or not he approves of the proposed division, if any, of the district in which his land is located, and (b) on whether or not he approves of the proposed new district in which his land will be located under the proposed combination, if any. No informalities in the conduct of such referendum or in any matters relating thereto shall invalidate said referendum or the result thereof if notice shall have been given substantially as herein provided and said referendum shall have been fairly conducted.

(3) The committee commission shall publish the results of such referendum and shall thereafter consider and determine whether the division or combination requested in the petition is administratively practicable and feasible. If the committee commission shall determine that the division or combination of such district or districts is not administratively practicable and feasible, it shall record such determinations and deny the petition. If the committee commission shall determine that the division or combination is administratively feasible and practicable, it shall record such determinations and proceed with the division or combination of the district or districts in the manner hereafter provided. In making such determinations the committee commission shall give due regard and weight to the attitudes of the owners of lands lying within the defined boundaries of the districts to be affected, the number of landowners landowners, eligible to vote in such referendum who shall have voted, the proportion of the votes cast in such referendum in favor of the division or combination of the district or districts to the total number of votes cast, the approximate wealth and income of the land owners of the proposed new district, or districts, the probable expense of carrying on erosion control operations within such district or districts, and such other economic and social factors as may be relevant to such determinations.

(4) If the committee commission shall determine that the proposed division or combination is practicable and feasible in its entirety, it shall appoint for each district to result from the proposed division or combination two supervisors to act with three supervisors of the old districts to be affected, and only such existing supervisors shall be entitled to vote in such referendum. Any existing supervisor shall be eligible to be appointed or elected as a new supervisor. The committee commission shall then certify to the new supervisors, and to the supervisors of such existing district which is to be divided or combined (hereinafter sometimes called old supervisors), the determination of the committee commission as to the administrative practicability and feasibility of the division or combination, the boundaries of the proposed districts, the names, addresses, and positions of the supervisors appointed or elected for each new district, and such other data as it deems appropriate. Thereupon, the old supervisors of each district to be divided, if any, shall decide the proportion and manner of division of its property, assets, and rights, exclusive, however, of any executory contracts, among the new districts into which the old district is to be divided, taking into consideration the nature and source of such property, assets, and rights, the comparative sizes of the new divisions, the number of landowners landowners of each such division, and general considerations of fairness in making the allocation. The supervisors shall notify the committee commission and the new supervisors who are to receive any of said property, rights, and assets, of their decision; and the said supervisors and any other persons within the district who may be, in the committee commission's judgment, reasonably entitled to be heard, decide and determine finally the proportions and manner of division, and shall certify its decision to said supervisors, who shall be entitled under the division or combination decided upon to divide the old property, assets, and rights accordingly.

(5) Upon receiving the said property, assets, and rights to which they shall be entitled under the division or combination decided upon in the above manner, the supervisors of each resulting district shall file an application, duly verified, with the secretary of state, for the effect for the period provided in such contracts. The committee commission shall determine whether the division or combination of the property, assets, and rights was administratively practicable and feasible; and that the division or combination of the property, assets, and rights to be made, the boundaries of the district to the new supervisors of the combined district of which it will comprise a part.

If the supervisors of a district to be divided are unable to agree on the division of the said property, assets, and rights to be made, within sixty days after the certification of determination from the committee commission, they shall notify the committee commission, and the committee commission shall, after a hearing of the said supervisors and any other persons within the district who may be, in the committee commission's judgment, reasonably entitled to be heard, decide and determine finally the proportions and manner of division, and shall certify its decision to said supervisors, who shall be entitled under the division or combination decided upon to divide the said property, assets, and rights accordingly.

(6) Upon the issuance of the certificate of due constitution of each such district under the provisions of this Part, all ordinances and regulations theretofore adopted and in force within the former districts shall be of no further force and effect. All contracts, agreements, and easements entered into, to which an old district or the old supervisors thereof are parties, shall remain in force and effect for the period provided in such contracts. The committee commission shall be substituted for the district or supervisors as a party to such contracts. The committee commission shall be entitled to all benefits and subject to all liabilities under such contracts and
shall have the same right and liability to perform, to require performance, to sue and be sued, and to modify or terminate such contracts by mutual consent or otherwise, as the supervisors of the former district would have had. The committee commission may designate and direct any of the new districts to act as its agent to carry out any contract or duty, or enforce any right, or perform any other work which accords to it under this section Section on account of the division or combination of an old district.

J. When a petition signed by at least a majority of landowners landowners in a territory is submitted to the committee commission requesting that the territory be transferred from the district wherein the territory is located to an adjoining district, the committee commission shall proceed as follows.

The committee commission may conduct public meetings and hearings upon such petition as may be necessary to assist it in the consideration thereof. In making such determination, the committee commission shall give due weight and consideration to the legislative determinations set forth in R.S. 3:1201 and to the standards provided herein for the guidance of the committee commission in making its determinations in connection with the organization of districts. The committee commission may define in more detail the boundaries of the territory proposed to be transferred. If the committee commission determines that the proposed transfer is not administratively practicable and feasible, it shall record such determination and deny the petition. If the committee commission shall determine that the transfer is administratively feasible and practicable, it shall record such determination and allow the petition.

The committee commission shall proceed with and complete the proposed transfer. In such case, no referendum shall be necessary.

K. In any suit, action, or proceeding involving the validity or enforcement of, or relating to, any contract, proceeding, or action of the district, the district shall be deemed to have been established in accordance with the provisions of this Part upon proof of the issuance of the aforesaid certificate by the secretary of state. A copy of such certificate duly certified by the secretary of state shall be admissible in evidence in any such suit, action, or proceeding and shall be prima facie proof of the filing and contents thereof.

It shall be the duty of the assessor for the parish or parishes in which real property included within the boundaries of an established or a proposed soil and water conservation district is situated to furnish, within thirty days after receipt of a written request, the state soil and water conservation committee commission a list of the persons paying taxes on real property located within the boundaries of an established or a proposed soil and water conservation district as shown by the assessment roll last made and filed; likewise, it shall be the duty of the registrar of voters to furnish a list of qualified voters.

The registration and assessment rolls, in the absence of fraud, shall be the sole and final tests of the qualifications of voters for participation in referenda or elections held under the provisions of this Part.

L. A third method by which the boundaries of soil and water conservation districts may be changed is as follows: The board of supervisors of any one or more districts organized under the provisions of this law may submit to the state committee commission a petition signed by eighty percent of the members of the board of supervisors of each district affected requesting a division of a district, a combination of two or more districts, or a transfer of land from one district to another. The state committee commission shall make a determination as to the practicability and feasibility of the proposed change, giving due regard to the same considerations as provided in this Section for changes in district boundaries by other methods. If the committee commission determines that the proposed change of district boundaries is not administratively practicable and feasible, it shall record such determination and deny the petition. If the committee commission determines that the proposed change is administratively practicable and feasible, it shall record such determination and proceed with the reorganization of the district or districts affected in the same manner as provided in this Section for changes in district boundaries by other methods.

§1206. Election of three supervisors for each district

A. Within thirty days after the date of issuance by the secretary of the state of a certificate of organization of a soil and water conservation district, nomination petitions may be filed with the state soil and water conservation committee commission to nominate candidates for supervisors of the district. The committee commission shall have authority to extend the time within which nominating petitions may be filed. No nominating petition shall be accepted by the board, unless it shall be subscribed by twenty-five or more qualified voters within the district who are qualified to vote under the constitution and laws of this state. Qualified voters may sign more than one such nominating petition to nominate more than one candidate for supervisor. The committee commission shall give due notice of an election to be held for the election of three supervisors for the district. The names of all nominees on behalf of whom nominating petitions have been filed within the time herein designated shall be printed, arranged in the alphabetical order of the surnames, upon ballots, with a square before each name and a direction to insert an X mark in the square before any three names to indicate the voter's preference. All qualified voters within the district who are qualified to vote under the constitution and laws of this state shall be eligible to vote in the election. Only qualified voters shall be eligible to vote. The three candidates who shall receive the largest number, respectively, of the votes cast in such election shall be the elected supervisors for such district. The state committee commission shall pay all the expenses of such election, shall supervise the conduct thereof, shall publish the results thereof.

B. If the total number of candidates duly presented in nominating petitions does not exceed the number of supervisor places to be filled by election, then and in that event, the state committee commission is authorized and empowered to dispense with the election procedure outlined above and to declare each of said candidates duly qualified as a supervisor without the requirement of an election the same as if his name had been presented to the qualified voters in an election. Candidates so qualified shall be considered for all purposes "elected supervisors" wherever such term appears in this Part.

§1207. Appointment, qualifications, tenure of supervisors

B. The supervisors shall designate a chairman and may from time to time change such designation. The term of office of each supervisor shall be three years, except that the supervisors who are first appointed shall be designated to serve terms of one and two years, respectively, from the date of their appointment. A supervisor shall hold office until his successor has been elected or appointed and has qualified. Vacancies shall be filled for the unexpired term. The selection of a successor to fill an unexpired term shall be by appointment by the committee commission; such supervisor's successor, however, shall be selected in the same manner as the supervisor whose unexpired term he was appointed by the committee commission to fill. The selection of a successor for a full term shall be made in the same manner in which the retiring supervisor was
selected. A majority of the supervisors shall constitute a quorum, and the concurrence of a majority in any matter within their duties shall be required for its determination. A supervisor may receive compensation for his services not to exceed thirty-five dollars per day for not more than twenty days annually, and he may be paid expenses, including traveling expenses, necessarily incurred in the discharge of his duties. These costs may be paid from either appropriated funds or from local district funds.

* * * *

G. Any supervisor may be removed by the committee commission upon notice and hearing, for neglect of duty or malfeasance in office, but for no other reason. A supervisor shall not qualify for reappointment or reelection unless he shall have attended at least sixty-six and two-thirds percent of the scheduled district meetings, provided, however, upon a showing of good cause, this condition may be waived by resolution duly adopted by the state soil and water conservation committee commission.
