The oil spill has been declared to be the largest, unprecedented environmental disaster that the United States has ever experienced and could seriously damage if not destroy the environment, economy, livelihood, and heritage of the people of the state of Louisiana and its natural resources.

B. During the normal course of events, the state is well served by a policy of strict recognition and enforcement of individual rights. However, when the state must protect itself in order to retain its ability to protect the rights and freedoms of individuals, the interests of the state may and often do conflict with various private interests. At such times, these narrow private interests and rights must be set aside in order to ensure the long term endurance of the state. Individual rights, property rights and otherwise, are not absolute. The current environmental and economic disaster requires the state, state entities, and political subdivisions to make critical and immediate decisions. As a matter of public policy for the good of the state, the imposition of immunities for such decisions and limitations of liability for resulting acts is required. The need to mitigate the damage to the environment, economy, and livelihood, and to the lives of countless future generations of Louisiana citizens justifies such infringements, disruptions, immunities, and limitations.

C.(1) Accordingly, it is the intent of the Legislature that any immunity or limitation of liability provision contained in this Chapter, the Oil Spill Prevention and Response Act, or any other provision of law shall be broadly interpreted to afford the greatest protection to the state, any state entity, a trustee designated under the provisions of the Oil Pollution Act of 1990, any political subdivision, or any officer or employee thereof, who is engaged in response, disaster mitigation, prevention, recovery, or clean-up directed, coordinated, or executed pursuant to the powers granted under the provisions of this Chapter, the Oil Spill Prevention and Response Act, the Oil Pollution Act of 1990, or any other law as a result of the precipitating event.

(2) There shall be no cause of action against the state, any state entity, a trustee, an agent of the state, any political subdivision, or any officer or employee thereof, for the recovery of any loss, diminution in value, interruption, or damage to any right, title, interest, license, permit, or leasehold or any earnings associated therewith, due to or caused by any act or omission related to the precipitating event.

D. For purposes of this Section, "agent of the state" includes any third-party cleanup contractor certified by the oil spill coordinator in accordance with the provisions of the Oil Spill Prevention and Response Act, certified by a trustee, and designated

as essential workforce by the director of the Governor's Office of Homeland Security under the provisions of this Chapter, any of which can be evidenced by affidavit or contained in a contract or any addendum thereto.

E. No provision of this Section shall:

(1) Affect the right of any person to receive benefits or compensation to which he might otherwise be entitled under workers' compensation, unemployment benefits, insurance, or governmental assistance established for the purpose of compensating any affected class of individuals.

(2) Limit any individual, class, or governmental claim against those responsible for the precipitating event, including its insurers, for a claim based in negligence, contract, product liability, property damage, tortious interference, subrogation, indemnification, or other cause of action.

(3) Preclude recovery for any loss, diminution in value, interruption, or damage to any right, title, interest, license, permit, or leasehold or any earnings associated therewith from the responsible party for the precipitating event.

Section 3(A). Section 2 of this Act shall become effective upon signature by the governor or, if not signed by the governor, upon expiration of the time for bills to become law without signature by the governor, as provided by Article III, Section 18 of the Constitution of Louisiana. If vetoed by the governor and subsequently approved by the legislature, this Act shall become effective on the day following such approval.

(B). The provisions of Section 2 of this Act are declared to be of great public policy and curative, remedial, and interpretive and therefore shall be applied retroactively to the precipitating event, as well as prospectively."

Section 1. R.S. 30:124 is hereby amended and reenacted to read as follows:

§124. Board may lease public lands; fee

A. The legislature finds that the state, through the Department of Natural Resources, should promote the generation and use of alternative energy sources, including but not limited to wind energy, geothermal energy, solar energy, and hydrokinetic energy, throughout the state to ensure the viability of the state's natural resources, to provide a continuing utility-scale clean energy source for the citizens and businesses of Louisiana, to support economic development through job retention and creation in Louisiana, and to promote a clean environment.

B. The State Mineral and Energy Board, hereinafter referred to as the "board", has authority to lease for the development and production of minerals, oil, and gas, or alternative energy sources, any lands belonging to the state, or the title to which is in the public, including road beds, water bottoms, vacant state lands, and lands adjudicated to the state at tax sale. The board, in consultation with the Department of Transportation and Development, shall adopt rules and regulations in accordance with the Administrative Procedure Act to implement the provisions of this Subpart.

C. As used in this Section, "alternative energy sources" means energy sources other than oil, gas, and other liquid, solid, or gaseous minerals. It shall include, but not be limited to, wind energy, geothermal energy, solar energy, and hydrokinetic energy. It shall not include the cultivation or harvesting of biomass fuels or the use of state land or water bottoms for facilities which utilize biomass fuel to produce energy.

D. Sec 791a, et seq.

E.(1)(a) No lease affecting the following lands shall be granted for alternative energy sources development on such lands without prior written approval of a port or port, harbor, and terminal district:

(i) Lands held in title by the port or port, harbor, and terminal district or held by lease or servitude by such port or port, harbor, and terminal district.

(ii) Public navigable waters that flow through any lands within the jurisdiction of a port or port, harbor, and terminal district. Approval pursuant to this Item shall not be unreasonably withheld unless such lease would be detrimental to the needs of commerce and navigation.

(b) No port or port, harbor, and terminal district shall receive compensation for their approval.

(2) After the port or port, harbor, and terminal district decides whether or not to grant approval, the board shall send a notice by certified mail to the lease applicant for alternative energy sources development. The notice shall include the following:

(a) The decision of the port or port, harbor, and terminal district to provide either prior written approval of the lease or to deny approval of such lease.

(b) If the port or port, harbor, and terminal district does not grant prior written approval, notice that the lease applicant has sixty days from receipt of the notice to request an administrative hearing with the division of administrative law pursuant to Chapter 13-B of Title 49 of the Louisiana Revised Statutes. The request for an administrative hearing shall be filed with the division of administrative law, with copies mailed to the board and the port or terminal district.

(3) The port or port, harbor, and terminal district which does not grant prior written approval of a lease shall have the burden of proof, at the administrative hearing, that the lease is detrimental to the needs of commerce and navigation.

(4) The port or port, harbor, and terminal district shall contract with the division of administrative law to conduct the hearing. The administrative law judge may, in his discretion, assess the costs of the administrative hearing and reasonable attorney fees of the prevailing party against the losing party.

(5) Notwithstanding any provision of the law to the contrary, the lease applicant or the port or port, harbor, and terminal district may petition the district court for the parish of East Baton Rouge for judicial review of any final decision or order of the administrative law judge.

F. The mineral board is further authorized to collect a fee for such leasing in the amount of ten percent of the total cash bonus paid at the lease sale. The fee shall be in addition to the total cash bonus paid."

Such financing shall include interest rates and administrative fees as determined by the district. The district shall accept or reject the request according to criteria established by the district and make such loan upon terms and conditions that shall be set forth in the ordinance or resolution. However, the term for repayment of a loan, together with interest rates and administrative fees, shall not exceed twenty years.

(2) In the event that the property for which an energy efficiency improvement or renewable energy improvement loan is sought is encumbered by a mortgage, then the total amount loaned for such property shall not exceed ten percent of the reasonable expected fair market value of the property, determined using an appropriate value test, which may include an assessment of the reasonable expected value of the property with the completed improvements on the property as defined and provided in program rules, or the price of the property at its last sale.

(3) No owner of immovable property shall be eligible for a loan from a district unless there is available equity in the property, meaning that the current value as determined using an appropriate value test of the subject property exceeds the current mortgage loan balances for the mortgage loans encumbering the subject property, and that the dollar amount of loans from the district for a particular property shall not exceed the remaining equity value in the property. The total loan-to-value ratio for all loans secured by the immovable property shall not exceed one hundred percent. In the event of nonpayment or default, there shall be no acceleration of the debt, and tax delinquency shall exist only for assessments not paid when due.

(6) In order to qualify for financing, the property owner shall demonstrate an ability to repay the loan by having a minimum debt-to-income ratio of fifty percent.

(7) It shall be required that an appropriate evaluation such as energy audit or renewable energy system feasibility study be conducted on the qualifying real property and reviewed by the district prior to approval of the financing.

(8) Where energy efficiency or renewable energy improvements are proposed to be installed on residential properties, the district shall make written verification that the improvements are installed and all work is completed satisfactorily before program loan funds are disbursed. In the alternative, funds for improvements may be disbursed based on multiple stages of completion, and loan funds for a particular stage of completion shall not be disbursed until the district conducts written verification that the corresponding stage of work is satisfactorily completed.

(9) All energy efficiency and renewable energy improvements financed by the program shall be performed by duly qualified contractors, subcontractors, or tradesmen pursuant to program rules.

(10) Where an energy efficiency or renewable energy improvements loan is proposed for a commercial property and that property is encumbered by a mortgage, the mortgagee shall be given

prior written notice of the proposed program loan, and in order to proceed with the program loan the property owner shall obtain the prior written approval of the mortgagee.
