AMENDMENT NO. 4

On page 2, after line 15, insert the following:

"Section 2. R.S. 29:735.6 is hereby enacted to read as follows:

§735.6. Deepwater Horizon Oil Drilling Rig disaster; special provisions

A. The Deepwater Horizon oil drilling rig explosion on April 20, 2010 and the resulting environmental damage and economic injury, collectively the precipitating event, has resulted in immeasurable personal, environmental, and economic loss. The oil spill has been declared to be the largest, unprecedented environmental disaster that the United States has ever experienced, and could seriously damage if not destroy the environment, economy, livelihood, and heritage of the people of the state of Louisiana and its natural resources.

B. During the normal course of events, the state is well served by a policy of strict recognition and enforcement of individual rights. However, when the state must protect itself in order to retain its ability to protect the rights and freedoms of individuals, the interests of the state may and often do conflict with various private interests. At such times, these narrow private interests and rights must be set aside in order to ensure the long term endurance of the state. Individual rights, property rights and otherwise, are not absolute. The current environmental and economic disaster requires the state, state entities, and political subdivisions to make critical and immediate decisions. As a matter of public policy for the good of the state, the imposition of immunities for such decisions and limitations of liability for resulting acts are required. The need to mitigate the damage to the environment, economy, and livelihood, and to the lives of countless future generations of Louisiana citizens justifies such infringements, disruptions, immunities, and limitations.

C.(1) Accordingly, it is the intent of the Legislature that any immunity or limitation of liability provision contained in this Chapter, the Oil Spill Prevention and Response Act, or any other provision of law shall be broadly interpreted to afford the greatest protection to the state, any state entity, a trustee designated under the provisions of the Oil Pollution Act of 1990, any political subdivision, or any officer or employee thereof, who is engaged in response, disaster mitigation, prevention, recovery, or clean-up directed, coordinated, or executed pursuant to the powers granted under the provisions of this Chapter, the Oil Spill Prevention and Response Act, the Oil Pollution Act of 1990, or any other law as a result of the precipitating event.

(2) There shall be no cause of action against the state, any state entity, a trustee, an agent of the state, any political subdivision, or any officer or employee thereof, for the recovery of any loss, diminution in value, interruption, or damage to any right, title, interest, license, permit, or leasehold or any earnings associated therewith, due to or caused by any act or omission related to the precipitating event.

D. For purposes of this Section, "agent of the state" includes any third-party cleanup contractor certified by the oil spill coordinator in accordance with the provisions of the Oil Spill Prevention and Response Act, certified by a trustee, and designated...
as essential workforce by the director of the Governor's Office of Homeland Security under the provisions of this Chapter, any of which can be evidenced by affidavit or contained in a contract or any addendum thereto.

E. No provision of this Section shall:

1. Affect the right of any person to receive benefits or compensation to which he might otherwise be entitled under workers' compensation, unemployment benefits, insurance, or governmental assistance established for the purpose of compensating any affected class of individuals.

2. Limit any individual, class, or governmental claim against those responsible for the precipitating event, including its insurers, for a claim based in negligence, contract, product liability, property damage, tortious interference, subrogation, indemnification, or any other cause of action.

3. Preclude recovery for any loss, diminution in value, interruption, or damage to any title, interest, license, permit, or leasehold or any earnings associated therewith from the responsible party for the precipitating event.

Section 3(A). Section 2 of this Act shall become effective upon signature by the governor or, if not signed by the governor, upon expiration of the time for bills to become law without signature by the governor, as provided by Article III, Section 18 of the Constitution of Louisiana. If vetoed by the governor and subsequently approved by the legislature, this Act shall become effective on the day following such approval.

(B). The provisions of Section 2 of this Act are declared to be of great public policy and curative, remedial, and interpretive and therefore shall be applied retroactively to the precipitating event, as well as prospectively."

Point of Order

Rep. Leger asked for a ruling from the Chair as to whether the above amendments were germane to the subject matter contained in the bill as introduced.

The Chair ruled that the above amendments were not germane to the subject matter contained in the bill as introduced.

   (b) No port or port, harbor, and terminal district shall receive compensation for their approval.

   (2) After the port or port, harbor, and terminal district decides whether or not to grant approval, the board shall send a notice by certified mail to the lease applicant for alternative energy sources development. The notice shall include the following:

      (a) The decision of the port or port, harbor, and terminal district to provide either prior written approval of the lease or to deny approval of such lease.

"B.(1) The owner of residential or commercial immovable property within the district may request financing in the form of a loan from the district to cover the costs of energy efficiency improvements or renewable energy improvements that the owner contracts to make to the immovable property. Such financing shall include interest rates and administrative fees as determined by the district. The district shall accept or reject the request according to criteria established by the district and make such loan upon terms and conditions that shall be set forth in the ordinance or resolution. However, the term for repayment of a loan, together with interest rates and administrative fees, shall not exceed twenty years.

2. In the event that the property for which an energy efficiency improvement or renewable energy improvement loan is sought is encumbered by a mortgage, then the total amount loaned for such property shall not exceed ten percent of the reasonable expected fair market value of the property, determined using an appropriate value test, which may include an assessment of the reasonable expected value of the property with the completed improvements on the property as defined and provided in program rules, or the price of the property at its last sale.

3. No owner of immovable property shall be eligible for a loan from a district unless there is available equity in the property, meaning that the current value as determined using an appropriate value test of the subject property exceeds the current mortgage loan balances for the mortgage loans encumbering the subject property, and that the dollar amount of loans from the district for a particular property shall not exceed the remaining equity value in the property. The total loan-to-value ratio for all loans secured by the immovable property shall not exceed one hundred percent. In the event of nonpayment or default, there shall be no acceleration of the debt, and tax delinquency shall exist only for assessments not paid when due.

6. In order to qualify for financing, the property owner shall demonstrate an ability to repay the loan by having a minimum debt-to-income ratio of fifty percent.

7. It shall be required that an appropriate evaluation such as energy audit or renewable energy system feasibility study be conducted on the qualifying real property and reviewed by the district prior to approval of the financing.

8. Where energy efficiency or renewable energy improvements are proposed to be installed on residential properties, the district shall make written verification that the improvements are installed and all work is completed satisfactorily before program loan funds are disbursed. In the alternative, funds for improvements may be disbursed based on multiple stages of completion, and loan funds for a particular stage of completion shall not be disbursed until the district conducts written verification that the corresponding stage of work is satisfactorily completed.

9. All energy efficiency and renewable energy improvements financed by the program shall be performed by duly qualified contractors, subcontractors, or tradesmen pursuant to program rules.

10. Where an energy efficiency or renewable energy improvements loan is proposed for a commercial property and that property is encumbered by a mortgage, the mortgagee shall be given
prior written notice of the proposed program loan, and in order to proceed with the program loan the property owner shall obtain the prior written approval of the mortgagee.
