The State Bond Commission, or its successor, may issue and sell bonds, notes, or other obligations, hereinafter the "bonds" secured by a pledge of a portion of the monies received by the state as a result of the Settlement Agreement which are otherwise to be deposited in the Leverage Fund as provided in this Section. Such bonds may be issued only in amounts authorized by the legislature by two-thirds of the elected members of each house of the legislature. If settlement revenues are pledged to secure any revenue bonds issued pursuant to this Section, any portion thereof needed to pay principal, interest, or premium, if any, and other obligations incident to the issuance, security, prepayment, defeasance, and payment in respect thereof may be expended by the treasurer without the need for an appropriation, provided that the prepayment or defeasance has been approved by the legislature. Bonds so issued may also be further secured by a collateralization of all or a portion of monies in the Leverage Fund. If bonds are issued subject to such a collateralization, the treasurer may pay from the Leverage Fund any principal, interest, or premium, if any, and other obligations incident to the issuance, security, prepayment, defeasance, and payment in respect thereof without the need for an appropriation, provided that the prepayment or defeasance has been approved by the legislature. The net proceeds of any bonds issued pursuant to this Section shall be deposited in and credited to the Leverage Fund. Any revenue bonds issued under authority of this Section shall not be general obligation bonds secured by the full faith and credit of the state.

(D) Appropriations.

* * *

(2) Appropriations may be made only for the following purposes:

* * *

(e) The amounts available for appropriation for each of the purposes contained in Subparagraphs (a) through (c) of this Paragraph may be increased, and the amount available for appropriation for the purposes of Subsubparagraph (d) may be decreased by a specific legislative instrument which receives a favorable vote of two-thirds of the elected members of each house of the legislature.

(E) Termination. The legislature may, by passage of a specific legislative instrument by a favorable vote of two-thirds of the elected members of each house of the legislature, provide for the termination of deposits to the Leverage Fund. Any such termination shall be made in such a manner so as to not impair the obligation, validity, or security of any bonds issued under the authority of this Section. Upon termination, the amount of any settlement revenues over and above the amount pledged for security of any bonds issued pursuant to the authority granted in this Section, shall be deposited in and credited as provided in Article VII, Sections 10.8 and 10.9 of this Constitution.

§11. Budgets
Section 11.

* * *

(C) Capital Budget. The governor shall submit to the legislature, at each regular session, a proposed five-year capital outlay program and request implementation of the first year of the program. Prior to inclusion in the comprehensive capital budget which the legislature adopts, each capital improvement project shall be evaluated through a feasibility study, as defined by the legislature, which shall include an analysis of need and estimates of construction and operating costs. The legislature shall provide by law for procedures, standards, and criteria for the evaluation of such feasibility studies and shall set the schedule of submission of such feasibility studies which shall take effect not later than December thirty-first following the first regular session convening after this Paragraph takes effect. These procedures, standards, and criteria for
evaluation of such feasibility studies cannot be changed or altered except by a separate legislative instrument approved by a favorable vote of two-thirds of the elected members of each house of the legislature. For those projects not eligible for funding under the provisions of Article VII, Section 27 of this constitution, the request for implementation of the first year of the program shall include a list of the proposed projects in priority order based on the evaluation of the feasibility studies submitted. Capital outlay projects approved by the legislature shall be made part of the comprehensive state capital budget, which shall be adopted by the legislature.

§14. Donation, Loan, or Pledge of Public Credit

Section 14.

(D) Prior Obligations. Funds, credit, property, or things of value of the state or of a political subdivision heretofore loaned, pledged, dedicated, or granted by prior state law or authorized to be loaned, pledged, dedicated, or granted by the prior laws and constitution of this state shall so remain for the full term as provided by the prior laws and constitution and for the full term as provided by any contract, unless the authorization is revoked by law enacted by two-thirds of the elected members of each house of the legislature prior to the vesting of any contractual rights pursuant to this Section.

ARTICLE VIII. EDUCATION

§5. Board of Regents

Section 5.

(D) Powers. The Board of Regents shall meet with the State Board of Elementary and Secondary Education at least twice a year to coordinate programs of public elementary, secondary, vocational-technical, career, and higher education. The Board of Regents shall have the following powers, duties, and responsibilities relating to public institutions of postsecondary education:

(3)

(b) If the creation of a new institution, the merger of any institutions, the addition of another management board, or the transfer of an existing institution of higher education from one board to another is proposed, the Board of Regents shall report its written findings and recommendations to the legislature within one year. Only after the report has been filed, or after one year from the receipt of a request for a report from the legislature if no report is filed, may the legislature take affirmative action on such a proposal and then only by law enacted by two-thirds of the elected members of each house of the legislature.

§13. Funding; Apportionment

Section 13.

(B) Minimum Foundation Program. The State Board of Elementary and Secondary Education, or its successor, shall annually develop and adopt a formula which shall be used to determine the cost of a minimum foundation program of education in all public elementary and secondary schools as well as to equitably allocate the funds to parish and city school systems. Such formula shall provide for a contribution by every city and parish school system. Prior to approval of the formula by the legislature, the legislature may return the formula adopted by the board to the board and may recommend to the board an amended formula for consideration by the board and submission to the legislature for approval. The legislature shall annually appropriate funds sufficient to fully fund the current cost to the state of such a program as determined by applying the approved formula in order to insure a minimum foundation of education in all public elementary and secondary schools. Neither the governor nor the legislature may reduce such appropriation, except that the governor may reduce such appropriation using means provided in the act containing the appropriation provided that any such reduction is consented to in writing by two-thirds of the elected members of each house of the legislature. The funds appropriated shall be equitably allocated to parish and city school systems according to the formula as adopted by the State Board of Elementary and Secondary Education, or its successor, and approved by the legislature prior to making the appropriation. Whenever the legislature fails to approve the formula most recently adopted by the board, or its successor, the last formula adopted by the board, or its successor, and approved by the legislature shall be used for the determination of the cost of the minimum foundation program and for the allocation of funds appropriated.

ARTICLE IX. NATURAL RESOURCES

However, only one ten-point preference shall be allowed in the original appointment to any person enumerated above. If the ten-point preference is not used by the veteran, either because of the veteran’s physical or mental incapacity which precludes his appointment to a civil service job in his usual line of work or because of his death, the preference shall be available to his spouse, unremarried widow, or eligible parents as defined above, in the order specified. However, any such preference may be given only to a person who has attained at least the minimum score required on each test and who has received at least the minimum rating required for eligibility.

By law enacted by two-thirds of the elected members of each house, the legislature may amend or otherwise modify any of those provisions, but it may not abolish the system of classified civil service for such firemen and municipal policemen or make the system inapplicable to any municipality having a population exceeding thirteen thousand according to the latest decennial federal census or to any parish or fire protection district operating a regularly paid fire department. However, in a municipality having a population exceeding four hundred thousand, paid firemen and municipal policemen shall be included if a majority of the electors therein voting at an election held for that purpose approve their inclusion. Such an election shall be called by the governing authority of the affected city within one year after the effective date of this constitution.

Those who hold policies issued by the corporation will elect the successors to the four charter members representing for-profit businesses.
