H. The governing authority of each public elementary and secondary school that disburse school library books, textbooks, and other materials of instruction to nonpublic school students shall submit to the state superintendent of education such documentation as required to verify the administrative costs incurred by the governing authority in the disbursement of such books and instructional materials. The verified costs of administration incurred by each governing authority shall be paid by the state.

§8.4. Contracts with publishers; reviewing school books and materials of instruction

A. The State Board of Elementary and Secondary Education shall award contracts with publishers of school books on a competitive basis for a term to be determined by the board. Each contract shall be so made as to authorize the board to terminate it upon ninety-days notice. The procedure for examining books and awarding contracts shall be under the control of the board and in accordance with any applicable law. The board shall have authority to set and collect fees from publishers participating in state school book contracting procedures.

B. Each contract shall stipulate that the publisher shall automatically reduce the net cost of textbooks in the state when the net cost of the publisher for books covered by the contract are reduced anywhere in the United States, so that no edition of that textbook shall at any time be sold in this state at a higher net cost than that received for that book elsewhere in the United States.

C. Each contract with a publisher shall stipulate that the book or books covered by the contract to be sold in this state shall be identical with the official samples filed with the board with respect to size, paper, binding, print, illustrations, subject matter, and all other particulars which may affect the value of said books; however, during the period of the contract, the board may approve revised editions of a textbook or service at the bid price, which will authorize a publisher to provide such revisions.

D. Each contract with a publisher shall stipulate that whenever five thousand or more copies of a textbook of a single title and edition are to be purchased by the state from a single publisher during a twelve-month period which shall be established by the board by rule, not less than eighty percent of the total number of the copies of such book purchased by the state shall be printed and bound by a printer licensed to do business and doing business within the state, provided that the publisher receives a timely bid made according to the publisher's bid-making requirements from such a printer and provided that the printer is able to print and bind such book in accordance with the manufacturer's specifications for state textbooks as promulgated by the state Department of Education and at a cost equal to or less than the unit cost per book for the same number of books made in an otherwise qualified bid by any out-of-state printer bidding on the same work. Whenever two or more printers in this state submit bids which would qualify all of them to print and bind textbooks pursuant to this Section and one such printer is a minority-owned business as defined in R.S. 39:1952(15), the minority-owned business shall be awarded not less than ten percent of the printing and binding required by this Section to be done in this state.

E. The State Board of Elementary and Secondary Education shall make every effort to increase the availability and accessibility of electronic textbooks and instructional materials in the state's public elementary and secondary schools and shall encourage all publishers to provide electronic versions of the products they offer, whether in addition to, or in lieu of, the printed version.

F. The state Department of Education shall be the depository in the state for books for the schools. The state superintendent of education may do all things necessary and proper for the department to function as such depository, including but not limited to providing for the power to enter into contracts or agreements and to acquire property, through lease or purchase, in which the depository is to be located, and to determine the location or locations of the depository. The superintendent may require publishers to maintain a depository in the state or may contract, in accordance with the procedures for the letting of contracts set forth in applicable provisions of the Louisiana Procurement Code, particularly R.S. 39:1593, with any other public or private agency to act as the depository.

G. The state Department of Education shall require any depository with which the department does business to provide the department a written summary of all purchase orders for textbooks by the depository. The summary shall transmit such summary within three business days whichever the department requests it to do so, and the department shall make such a request upon the written request of any publisher licensed to and actually doing business in Louisiana. Such a summary shall be a public record. The summary shall itemize the total number of copies of each book which is the subject of a purchase order, the unit price of each book, the commissions paid to or the discounts received by the depository, and the publisher of each book.

H. The books shall be distributed to the governing authority of each public elementary and secondary school from the depository on requisition of the state superintendent of education.

I.(1) The State Board of Elementary and Secondary Education shall establish a procedure enabling each governing authority of a public elementary or secondary school to order and receive textbooks. The procedure shall include but not be limited to permitting a public elementary or secondary school governing authority to contract with a textbook publisher and receive any applicable publisher's discount; however, any textbook purchased under the provisions of this Paragraph shall be purchased at the same price or a lower price than such textbook can be purchased from any other source other than the publisher.

(2) The State Board of Elementary and Secondary Education shall adopt necessary rules and regulations in accordance with the Administrative Procedure Act to implement the provisions of this Subsection.

J. The State Board of Elementary and Secondary Education shall take such action as is necessary to assure that all school books and materials of instruction included in state publisher contracts are thoroughly screened, reviewed, and approved as to their alignment with content standards adopted by the board pursuant to R.S. 17:24.4(E).

K. The State Board of Elementary and Secondary Education shall take such action as is necessary to assure that any state committee or other group responsible for screening, reviewing and evaluating any materials of instruction and computer and related technological equipment and supplies, other than the governing authority of a public elementary or secondary school, shall contain a membership not less than one-third of which are teachers. For the purposes of this Section, the term 'teacher' shall mean any person employed by a city or parish school board who, as a condition of employment, is required to hold a valid teaching certificate issued by the state Department of Education. Not less than one-third of such committee or group shall be parents who are not public educators. Meetings of such committee or group shall be open to the public, and
any member of the public may attend and file written or make oral objections to any textbook under consideration. The board shall adopt a form whereby any member of the public may file written objections to any textbook being considered for inclusion in a contract.

L. The State Board of Elementary and Secondary Education shall maintain a copy of all recommended textbooks and instructional materials. Such textbooks and materials shall be maintained at the state Department of Education for a period of one year following their initial recommendation. Such textbooks and materials shall be available for public inspection online or during regular office hours.

M.(1) The state Department of Education shall ensure that all textbooks being considered for state recommendation are placed, prior to state recommendation and for a period of at least ninety days, in two cooperating public library branches in New Orleans, in three cooperating public library branches in Baton Rouge, in three cooperating public library branches in New Orleans to be determined by the New Orleans Public Library system, and in a cooperating public library in Shreveport, Monroe, Alexandria, Lake Charles, Lafayette, Houma, Covington, Hammond, Metairie, Marrero, Bossier City, Natchitoches, Ruston, DeRidder, New Iberia, Opelousas, Boggusus, and any other city designated by the superintendent of elementary and secondary education. Any interested person may inspect and review the books during the period when they are on display. Four samples of each such textbook shall be made available for such inspection and review at each such library. Three such samples shall be made available to be checked out from each such library by any interested person according to rules and regulations that the state Department of Education shall establish for such purpose. The locations and dates of availability of such textbooks shall be posted by the state Department of Education on its website in the form of a press release which shall remain posted online for the duration of the review period.

(2) The provisions of this Subsection shall be applicable only to such a textbook for which an electronic copy is not available online for inspection and review.
