STATE OF LOUISIANA
OFFICE OF THE GOVERNOR

Bobby Jindal
Governor

June 1, 2012

Mr. Alfred W. Speer
Clerk of the House
State Capitol
Baton Rouge, LA 70802

Re: House Bill No. 133 by Representative Armes

Dear Mr. Speer:

House Bill No. 133 conflicts with House Bill No. 499, which I have signed into law. The two bills seek to achieve the same goal: allowing Louisiana's veterans the option to display their veteran status on their Louisiana driver’s license or state-issued identification card. However, whereas House Bill No. 499 allows a veteran to prove his or her veteran status by presenting a DD Form 214 or by presenting documents that are the equivalent of a DD Form 214, House Bill No. 133 restricts the ability of a veteran to prove his or her veteran status to submittal of the DD Form 214. There are other forms that serve the same function as the DD Form 214 and serve as adequate proof of veteran status. The flexibility provided by House Bill No. 499 will prevent a true veteran without a DD Form 214 from being denied the “VETERAN” designation on their driver's license or state identification card.

Therefore, I have vetoed House Bill No. 133 and hereby return it to the House of Representatives.

Sincerely,

BOBBY JINDAL
Governor
Lies over under the rules.

AMENDMENT NO. 7

On page 142, between lines 15 and 16, insert the following:

"Section 19. The legislature hereby recognizes that the

Constitution of Louisiana provides in Article VII, Section 11, that the
governor shall present to the legislature a five year Capital Outlay
Program and request implementation of the first year of such
program, and that the capital outlay projects approved by the

legislature are to be made part of the comprehensive state capital
budget which shall, in turn, be adopted by the legislature. Further, all
projects in such budget adopted by the legislature requiring bond
funds must be authorized as provided in Article VII, Section 6 of the
Constitution of Louisiana. The legislature finds that over a period of
years the legislature has enacted numerous bond authorizations, but
due to inflation and the requirements of specificity of amount for
each project, impossibility, or impracticability, many of the projects
cannot be undertaken. All of the unissued bonds must be listed in the

financial statements of the state prepared from time to time and in
connection with the marketing of bonds, and are taken into account
by rating agencies, prospective purchasers, and investors in

evaluating the investment quality and credit worthiness of bonds
being offered for sale. The continued carrying of the aforesaid

unissued bonds on the financial statements of the state under the
above described circumstances operates unnecessarily to the financial
detriment of the state. Accordingly, the legislature deems it

necessary and in the best financial interest of the state to repeal all

Acts, except any Act authorizing the issuance of refunding bonds and
Act 41 of the 2006 First Extraordinary Session, providing for the
issuance of general obligation bonds in the state which cannot be
issued for the projects contemplated, and in their stead to reauthorize
general obligation bonds of the state for those projects deemed to be
essential, and to authorize new projects.

Section 20. It is the intent of the legislature that Sections 19
through 25 of this Act shall constitute the Omnibus Bond
Authorization Act of 2012, and shall provide for the issuance of

refunding bonds and Act 41 of the 2006 First Extraordinary Session, shall provide bond authorization, as required
by Article VII, Section 6 of the Constitution of Louisiana, for those
projects to be funded totally or partially by the sale of general
obligation bonds and included in Sections 1 through 18 of this House
Bill No. 2 of the 2012 Regular Session as finally enacted into law
(2012 Capital Outlay Act). It is the further intent of the legislature
that in this year and each year hereafter an Omnibus Bond

Authorization Act shall be enacted providing for the reissuance of state
general obligation bond authorizations for projects no longer found
feasible or desirable, the reauthorization of those bonds not sold
during the prior fiscal year for projects deemed to be of such priority
as to warrant such reauthorization, and to enact new authorization for
projects found to be needed for capital improvements.

Section 21. Except as hereinafter provided, all prior Acts of the

legislature authorizing the issuance of general obligation bonds of the

state of Louisiana shall be and the same are hereby repealed in their
entirety, including without limitation Acts 2 through 25 of the 2011 Regular
Session of the Louisiana Legislature and any Acts hereby repealed with such Act. This repeal shall not be applicable to any
Act providing for the issuance of refunding bonds nor to Act 41 of the
2006 First Extraordinary Session, and such Acts shall remain in
full force and effect and shall not be affected by the provisions of
Sections 19 through 25 of this Act. In addition, the repeal shall not
in any manner affect the validity of any bonds heretofore issued
pursuant to any of the bond authorizations repealed hereby.

Section 22. To provide funds for certain capital improvement
projects the State Bond Commission is hereby authorized pursuant to
Article VII, Section 6 of the Constitution of Louisiana to issue
general obligation bonds or other general obligations of the state for
capital improvements for the projects, and subject to any terms and
conditions set forth on the issuance of bonds or the expenditure of
monies for each project as is provided for in the 2012 Capital Outlay
Act.

Section 23. (A) To provide funds for certain capital improvement
projects authorized prior to this Act and by this Act, which projects are designed to provide for reimbursement of debt
service on general obligation bonds, the State Bond Commission is

hereby authorized pursuant to Article VII, Section 6 of the Constitution of Louisiana, to issue general obligation bonds of the
state, hereinafter referred to as "project bonds", for capital improvements for the projects and subject to any terms and
conditions set forth on the issuance of bonds or the expenditure of
monies for each such project as provided in the 2012 Capital Outlay
Act the terms of which require such reimbursement of debt service.

(B) Without affecting, restricting, or limiting the pledge herein

made of the full faith and credit of the state of Louisiana to the

payment of the general obligation bonds authorized by this Section
and without affecting, restricting, or limiting the obligation of the

state to pay the same from monies pledged and dedicated to and paid

into the Bond Security and Redemption Fund, but in order to
decrease the possible financial burden on the general funds of the
state resulting from this pledge and obligation, the applicable
management board, governing body, or state agency for which any

of such project bonds are issued, in the fiscal year in which such

project bonds are issued and in each fiscal year thereafter until such

project bonds and the interest thereon are paid, shall transfer and

make available to the State Treasury, for deposit in the Bond Security and Redemption Fund, designated student fees or revenues or other revenues in an amount equal to the debt service on such project bonds in such fiscal year. In addition, the applicable management board, governing body, or state agency, in the fiscal year in which such project bonds are issued and in each of the nine immediately succeeding fiscal years thereafter, shall transfer and make available to the state treasury from designated student fees or revenues or other revenues, for credit to a reimbursement reserve account for such project bonds which shall be established in an account designated in the act hereunder, if no governing board exists, by the chief executive officer if no governing board exists, or by the state agency to the aggregate principal amount of project bonds, shall be authorized by resolution of the applicable management board, governing body, or state agency to the applicable management board, governing body, or state agency to the state treasury. Each such reimbursement reserve account shall be used, if necessary, solely to make the reimbursement payments herein obligated to be made to the state treasury. When the general obligation bonds and the interest thereon issued hereunder have been paid, any amount remaining in a reimbursement reserve account, as prorated to such authorized project, shall be transferred by the state treasurer to the applicable management board, governing body, or state agency.

(C) No project bonds authorized by this Section shall be issued for any authorized project unless and until a reimbursement contract has been entered into and executed between the applicable management board, governing body, or state agency and the State Bond Commission pertaining to the reimbursement payment and reimbursement reserve account payments for such bonds. The reimbursement contract shall require payment into the state treasury of designated student fees or revenues or other revenues in an amount sufficient to reimburse the costs of the principal, interest, and premium, if any, on the project bonds. A reimbursement contract hereunder shall be authorized by resolution of the applicable management board, governing body, or state agency, or board or by act of the chief executive officer if no governing board exists.

This authorization shall provide for the dates, amounts, and other details for the payments required to be made to the state treasury and for the reserve account. The authorization may contain such covenants with the State Bond Commission regarding the fixing of rates for fees and charges or revenues and such other covenants and agreements with the State Bond Commission as will assure the required payments to the state treasury. The contract shall be subject to approval by the Office of the Attorney General and the State Bond Commission, and, when so accepted and approved, shall conclusively constitute and be the reimbursement contract for an authorized project, as required hereunder.

(D) The obligation to make the reimbursement payments as required by a reimbursement contract may be represented by the issuance of the applicable management board, governing body, or state agency of its nonnegotiable revenue obligation in the form of a bond or other evidence of indebtedness, hereinafter referred to as "reimbursement bond." The reimbursement bond shall be issued in a single bond form, without coupons, in the principal amount equal to the aggregate principal amount of project bonds, shall be registered in principal and interest in the name of and be payable to the State Bond Commission, shall bear interest at a rate or rates equal to the interest rate or rates payable on the project bonds, and shall be payable as to principal and interest at such times, in such manner, from designated student fees or revenues, or other revenues, and be subject to such terms and conditions as shall be provided in the authorizing resolution or document executed by a chief executive officer, where applicable. This authorization shall be subject to approval by the State Bond Commission and the Office of the Attorney General, and when so accepted and approved, the authorization shall constitute and be the reimbursement contract for such authorized project, as required hereunder. The reimbursement bonds authorized under the provisions of this Section may be issued on a parity with outstanding reimbursement bonds of the applicable management board, governing body, or state agency, or issued on a subordinate lien basis to outstanding bonds, or a combination thereof, and may include and contain such covenants with the State Bond Commission for the special fund for particular project bonds and such other customary provisions and conditions for their issuance by the applicable management board, governing body, or state agency as are authorized and provided for by general law and by this Section. Until project bonds for an authorized project have been paid, the applicable management board, governing body, or state agency shall impose fees and charges in an amount sufficient to comply with the covenants securing outstanding bonds and to make the payments required by the reimbursement contract.

(E) In addition to the other payments herein required, reimbursement contracts shall provide for the setting aside of sufficient student fees or revenues or other revenues in a reserve fund, so that within a period of not less than ten years from date of issuance of project bonds there shall be accumulated in a reserve fund and deposited there in an amount equal to the average annual debt service requirements on such project bonds. The reserve fund shall be used for the purpose of remedying or preventing a default in making the required payments under a reimbursement contract. The reserve fund required hereunder may consist of a reserve fund heretofore or hereafter established and may include other payments for reimbursement bonds of the applicable management board, governing body, or state agency, provided that (1) payments from such reserve fund to secure the payments required to be made under a reimbursement contract shall be on a parity with the payments to be made securing outstanding bonds and additional parity bonds and (2) no additional parity reimbursement bonds shall be issued except pursuant to the establishment and maintenance of an adequate reserve fund as approved by the State Bond Commission.

(F) When the balance of reimbursement bond proceeds, for a project, are allocated to another project, the State Bond Commission is authorized to make the appropriate amendment to the reimbursement contract with the agency making the reimbursement payments.

Section 24. The bonds authorized to be sold by the State Bond Commission pursuant to this Act shall be issued and sold in conformity with the provisions of Article VII, Section 6 of the Louisiana Constitution, R.S. 39:1361 through R.S. 39:1367, and R.S. 39:1401 through R.S. 39:1430.1, and any amendments thereto adopted prior to, at the same time as, or subsequent to, the effective date of this Act. However, the provisions of R.S. 39:1365(9) shall not apply to any bonds issued hereunder in the form of variable rate and/or tender option bonds and that said bonds need not be issued in serial form and may mature in such year or years as may be specified by the State Bond Commission. Should any provision of this Act be inconsistent with any provision of the Louisiana Revised Statutes of 1950, the provision of this Act shall govern. In connection with the issuance of the bonds authorized hereby, the State Bond Commission may, without regard to any other laws of the state relating to the procurement of services, insurance, or facilities, enter into contracts upon such terms as it deems advantageous to the state for (1) the obtaining of credit enhancement or liquidity devices designed to improve the marketability of the bonds and (2) if the bonds are structured as variable rate and/or tender option bonds to provide services and facilities required for or deemed appropriate by the State Bond Commission for the type of bonds, including those of tender agents, placement agents, indexing agents, remarketing agents, and standby bond purchase facilities. The cost of obtaining credit enhancement or liquidity devices and fees for other services set forth in this Section shall, if authorized by the State Bond Commission, be
paid from the Bond Security and Redemption Fund as a requirement with respect to the issuance of the bonds authorized hereby. The bonds shall be general obligations of the state of Louisiana, to the payment of which, as to principal, premium, if any, and interest, as and when the same become due, the full faith and credit of the state is hereby irrevocably pledged. These bonds shall be secured by monies in the Bond Security and Redemption Fund and shall be payable on a parity with bonds and other obligations heretofore and hereafter issued which are secured by that fund. The maximum interest rate or rates on such bonds, and their maturities, shall be determined by the State Bond Commission. The state treasurer shall invest all bond proceeds until disbursed.

Section 25. The provisions, items, and projects contained in this Act are severable and if any provision, item, or project contained herein, or the application of any such provision, item, or project, is held invalid, such invalidity shall not affect other provisions, items, projects, or applications of the Act which can be given effect without the invalid provision, project, item, or application.

Section 26. Unless specifically repealed, Sections 19 through 25 of this Act shall expire, and be considered null and void and of no further effect on June 30, 2013 except as to any bonds authorized herein (1) which have been sold, (2) to which lines of credit have been issued, or (3) for which contracts for construction have been signed."

(b) Such reimbursement shall be made exclusively from the moneys in the fund pursuant to R.S. 11:546.
