AMENDMENT NO. 6

On page 2, delete lines 6 through 23 in their entirety and insert in lieu thereof:

"§1501. Introduction

§ * * *

C. Incumbent with this is the obligation to protect the investment of the state in the highway system. Access connections granted by the DOTD can be restrictive. However, DOTD, through its district administrators, may grant exceptions to the restrictions set forth in this Chapter based upon the uniqueness of the environment in which access is sought.

§ * * *

E. The DOTD policy referred to throughout this Chapter is available on the DOTD website.

§ * * *

§1515. Permit Conditions

§ * * *

D. The applicant may be required to post a bond in order to secure an access connection permit. If required, this bond shall be required and posted in accordance with DOTD policy, and shall be an amount as identified by the DOTD district office as sufficient to cover the expenses of all work or improvements required within the DOTD right-of-way as a condition of an access connection permit. The cost of restoration shall be borne by the applicant.

§ * * *

G. Post-construction inspections are mandatory for traffic generator access connections:

H. After having been constructed, access connection(s) shall at all times be subject to inspection with the right reserved to require changes, additions, repairs, and relocations at any time considered necessary to permit the location and/or to provide proper and safe protection to life and property on or adjacent to the highway. The cost of making such mandated changes, additions, repairs, and relocations shall be borne by the applicant.

I. If the applicant is unable to commence construction within 12 months of the permit issue date, the applicant may request a six month extension from the DOTD. No more than two six-month extensions may be granted under any circumstances. If the access connection is not constructed within 24 months from the permit issue date, the permit shall be considered expired. Any person wishing to reestablish an access connection permit that has expired shall begin again with the application procedures.

J. When the adjacent highway is under construction, a letter of no objection must be obtained from the highway contractor before the application can be approved and the permit can be issued. A copy of this letter shall be attached to the permit."
§1519. Permit Reapplication, Re-evaluation, and Modifications to Existing Commercial Access Connections

A. If the property is reconstructed/renovated/redesigned, the owner shall submit a request for a re-evaluation of the access connection(s) new application for an access connection permit. The
new application evaluation shall contain all necessary information and documentation as described in Section entitled Process for Acquiring an Access Permit DOTD policies, as well as a copy of the
old access connection permit.

B. If the property owner reconstructs the access connection, a
new access connection permit application request for re-evaluation shall be submitted. The DOTD reserves the right to make changes to the original permit during this process in order to improve safety and

D. If DOTD road maintenance and/or construction operations affect the condition or necessitate the reconstruction, improvement, modification, or removal of an existing access connection, a re-
evaluation of the access connection geometrics, location, etc. shall
may be performed by the district traffic operations engineer. The
access connection permit shall may be re-issued according to the
most current DOTD standards, and DOTD reconstruction efforts
shall follow these standards. The cost to reconstruct the access
connection to the right-of-way shall be borne by the DOTD. Any
additional costs to improve on-site conditions shall may be borne by the

§1521. Access Connection Requirements

A. * * *

2. In addition, the following constraints shall apply:

a. Full access shall may not be granted within the functional
influence area of the intersection. The influence area shall be as
defined in DOTD policies. For purposes of this Chapter, the
functional influence area of an intersection shall be defined as the
area beyond the physical intersection of two roadways and/or access
connection points that:

* * *

4. If the subject property is located at the intersection of two
routes, an access connection may be permitted on one of the both
routes, but one must be limited to right-in/right-out access. The
determination of the access connection location, locations and
restrictions on each shall be at the discretion of the DOTD according
to this rule and other applicable DOTD policies.

5. The applicant should provide sufficient on-site circulation to
ensure the safe ingress and egress of vehicles on the site. This on-site
circulation shall be contained within the owner’s property
boundaries and shall not encroach upon the right-of-way in any way.
Adequate on-site vehicle storage shall be provided in order to prevent
any overflow of queued/waiting traffic in the travel lane(s) of the
adjacent roadway(s).

* * *

B. The granting of access shall adhere to the following decision
hierarchy:

1. Each property or group of adjacent properties with a single
owner or development plan shall may be granted no more than one
access point, unless Paragraphs 4 and 5 of this Section are completed
and approved. The DOTD reserves the right to limit access to adjacent properties to those access connections which already exist. All properties shall receive adequate access, but that may be accomplished through required access sharing with a neighboring property.

* * *

4. A request for an access connection on a state route where
alternative access connection opportunities exist on non-state route(s)
may be accompanied by a traffic impact study. This study shall
comply with the guidelines and policies set forth by the DOTD for
such studies. In order to consider state route access in these cases,
the study shall show that the lack of access on the state route causes
unreasonable negative impacts to the traffic flow in the vicinity of the

5. Requests for access connections in excess of one access
connection or for an access connection on a state route where non-
state route access exists must be reviewed and approved by the
district engineer administrator. Such requests shall may be
accompanied by a traffic impact study. This study shall comply with
the guidelines and policies set forth by the DOTD for such studies.
In order to consider an additional access connection or an access
connection on a state route where non-state route access exists,
the study shall show that the lack of the requested access connections
causes unreasonable negative impacts to the traffic flow and safety
in the vicinity of the property and shall demonstrate that an additional
access connection will contribute to the overall improvement of the
safety and efficiency of the adjacent roadways and of the
transportation system.

* * *

§1529. Access Connections on Roadways with Medians

* * *

E. Gates, fences, signage, landscaping, or other decorative or
access-control features (i.e. gated subdivision) shall not be located
within the right-of-way. Any such access-control feature shall be
located so that a minimum storage of two vehicles (50’ storage length
minimum; greater distances may be required by the DOTD) is
provided outside of the limits of the right-of-way. Gated access shall
not be permitted as an approach to a traffic signal.

* * *

§1531. Design Requirements

* * *

B. All single-family residential and traffic generator access
connections shall be constructed with permanent hard surface type
materials (i.e. asphalt or concrete) as shown on the standard plans for
access connections for a distance shown in DOTD policy. Aggregate
access connections shall not be permitted within the right-of-way for
these types of connections. The hard surface type materials shall
extend the following distances from the edge of pavement:

1. single-family residential access connections: 10 feet from the
de edge of pavement;
(2) traffic generator access connections: 25 feet from the edge of pavement.

C. Non-commercial agricultural operations may not be required to be constructed of hard surface type materials.

D. All entrances and exits shall be located so that drivers approaching or using them will have adequate sight distance in all directions along the highway in order to maneuver safely and without interfering with traffic. Minimum required sight distance shall be calculated using the methods outlined in the AASHTO Geometric Design Guide for sight distance based on the posted speeds of the adjacent roadway or a speed other than the posted speed limit for these calculations DOTD policies.

E. All access connections shall be designed and constructed in accordance with all DOTD plans and specifications regarding drainage requirements. Culvert sizes, proposed elevations, and proposed slopes shall be approved by the DOTD prior to issuance of an access connection permit. The DOTD may require a drainage study to be performed at the expense of the applicant.

F. Access connections shall be constructed according to DOTD Standard Plans and other applicable policies and provision provisions.

§1533. Construction Requirements

E. The services of an independent DOTD-approved inspector shall may be obtained required to inspect the construction of all DOTD-required improvements in the DOTD right-of-way. The inspection process shall be in accordance with current DOTD policy. The DOTD district office may elect to perform independent inspections of work. Satisfactory completion and acceptance of the improvements by DOTD will be based upon the reports received from the inspector(s).

§1535. Improvements to the Adjacent Transportation System

B. Mitigation, which may be required by the DOTD, may be determined through a complete traffic impact study and/or traffic signal study review process. Required mitigation shall be reviewed by the district engineer administrator. Any required mitigation shall be noted on the permit(s) as required in accordance with DOTD policies, and bond amounts shall be appropriate for such mitigation, if required.

§1541. Appeals Process

B. Appeals shall be filed in accordance with the DOTD appeals policies set forth in LAC 70:1.1101 et seq.

AMENDMENT NO. 7
