AMENDMENT NO. 5

On page 1, delete line 9 in its entirety and insert the following:

"A. Purpose. It is the intention of the legislature in creating these five different types of tax credits: a credit for qualified production expenditures made from investments in a state-certified musical or theatrical production; a credit for the construction, repair, or renovation of facilities related to such productions and performances; a credit for qualified transportation costs for performance-related property; a credit for the payroll of Louisiana residents employed in connection with a state-certified musical or theatrical production; and a credit for employing college, university, and vocational-technical students employed in connection with a state-certified musical or theatrical production, to establish and promote Louisiana as one of the primary places in the United States in which live performances, from creation to presentation are present and thriving. The live performance industry will enhance economic development because it fits well with the state's reputation as a tourist destination, will offer numerous and varied employment opportunities, and in conjunction with the available federal and state incentives, will be an attraction for new and relocating businesses and will provide for the reinventing of countless abandoned properties as either performance or rehearsal spaces. The live performance industry will also spur educational development: Louisiana colleges, universities, and vocational-technical schools will be able to offer talented undergraduate and graduate students from this state, other states, and around the world a real-world opportunity to participate in degree programs across the state that work on the various productions in accounting, law, management, and marketing and to fill arts-related positions such as actors, writers, producers, stagehands, and directors, as well as technicians working on all aspects of the production such as lighting, sound, and actual stage production and operations.

B. Definitions. For the purposes of this Section:

(4) "Limited state-certified musical or theatrical production" means a musical or theatrical production or a series of productions occurring in Louisiana by a nonprofit community theater that held a public performance before an audience within this state during the 2008 calendar year which has been certified, verified, and approved in accordance with the provisions of this Section. "Infrastructure expenditures" means expenditures directly related to the state-certified infrastructure project or state-certified higher education infrastructure projects including land and land acquisition costs, construction costs, design fees, furniture, fixtures, and equipment purchased subject to a sale agreement or capital lease. Infrastructure expenditures shall not include indirect costs such as general administrative costs, insurance, or any costs related to the transfer or allocation of tax credits. The Department of Economic Development may determine if expenditures submitted as production-related costs or capital costs related to an infrastructure facility, represent legitimate expenditures for the actual costs or related goods or services, having economic substance and a business purpose related to the certified production or facility, and not constructive dividends, self-dealing, inflated prices or similar transactions entered into for the purpose of inflating the amount of tax credits earned rather than for the benefit of the production or facility."

(8) "Related party transaction" means a transaction between parties deemed to be related by common ownership or control, under generally accepted auditing principles. Related party transactions may be subject to limitations, as provided for by rules and regulations promulgated by the department.

(9)(a) "Resident" or "resident of Louisiana" means a natural person and, for the purpose of determining eligibility for the tax incentives provided by this Section, a person who qualifies for any of the following reasons:

(i) The person is domiciled in the state of Louisiana.

(ii) The person maintains a permanent place of abode within the state and spends in the aggregate more than six months of each year within the state.

(iii) The person pays taxes to the state on the amount of money paid to such person for which a credit is sought pursuant to this Section.

(b) A company owned or controlled by such a person and which lends the services of such a person for a state-certified musical or theatrical production shall also be deemed a resident if such company is organized or authorized to do business in the state and such company pays taxes to the state on the amount of money paid to such company for such services of such person.

(10) "State-certified higher education musical or theatrical infrastructure project" or "state-certified infrastructure project" means a capital infrastructure project in the state directly related to the production or performance of musical or theatrical productions as defined in this Section, and movable and immovable property and equipment related thereto, or any other facility which supports and is a necessary component of such facility, and any expenditures in the state related to the construction, repair, or renovation of such project, which are certified, verified, and approved as provided for in this Section.

(11) "State-certified musical or theatrical facility infrastructure project" or "state-certified infrastructure project" means a capital infrastructure project in the state directly related to the construction, repair, or renovation of such project, which are certified, verified, and approved as provided for in this Section.

20th Day's Proceedings - May 9, 2013
audience within Louisiana, or which have their United States debut within Louisiana, and the production expenditures, expenditures for the payroll of residents, transportation expenditures, and expenditures for employing college and vocational-technical students related to such production or productions, that are certified, verified, and approved as provided for in this Section. Non-qualifying projects include, but are not limited to non-touring music and cultural festivals, industry seminars, and trade shows, and any production activity taking place outside the state.

(b) A “state-certified musical or theatrical production” which shall be eligible for recertification and the credit provided for in this Section shall include a previously certified musical or theatrical production which received a credit pursuant to this Section, and which is otherwise eligible pursuant to this Section, which returns for performances within the state after being performed on Broadway.

(11)(a) “Transportation expenditures” means expenditures for the packaging, crating, and transportation both to the state for use in a state-certified musical or theatrical production of sets, costumes, or other tangible property constructed or manufactured by such production, or from the state after use in a state-certified musical or theatrical production of sets, costumes, or other tangible property constructed or manufactured in this state. Such term shall include the packaging, crating, and transporting of property and equipment used for special and visual effects, sound, lighting, and staging; costumes, wardrobes; make-up and related accessories and materials, as well as any other production or production-related property and equipment provided that transportation services are purchased through a company which has a significant business presence in the state.

(b) “Transportation expenditures” shall not include any costs to transport property and equipment to be used only for filming and not in a state-certified production, any indirect costs, any expenditures that are later reimbursed by a third party, or any amounts that are paid to persons or entities as a result of their participation in profits from the exploitation of the production.

AMENDMENT NO. 7

On page 2, between lines 3 and 4, insert the following:

"(bb) If all or a portion of an infrastructure project is a facility which may be used for other purposes not directly related to the production or performance of musical or theatrical production activities, then the project shall be approved only if a determination is made that the multiple-use facility will support and will be necessary to secure musical or theatrical production activities for the musical or theatrical production or performance facility and the applicant provides sufficient contractual assurances that. For state-certified higher education musical or theatrical infrastructure projects which receive initial certification on or before January 1, 2018, a base investment credit may be earned for expenditures made in the state on or before January 1, 2022, for the construction, repair, or renovation of a new state-certified higher education musical or theatrical facility infrastructure project, or for investments made by a company or a financier in such infrastructure project which are, in turn, expended for such construction, repair, or renovation. No more than ten million dollars total in tax credits shall be granted for state-certified higher education musical or theatrical infrastructure projects. Twenty-five percent of the total base investment provided for in the initial certification letter of a state-certified higher education musical or theatrical infrastructure project must be expended on or before January 1, 2020, in order for the project to earn credits for the remaining estimated base investment provided for in the initial certification letter, as expenditures are made in the state on or before January 1, 2022. No credits shall be certified until the state-certified higher education musical or theatrical infrastructure project is complete. The initial certification letter shall be effective for qualified expenditures made no more than six months prior to the date of application. State-certified higher education musical or theatrical infrastructure projects shall not be subject to the provisions of Subitem (cc) of this Item nor shall such projects be subject to the provisions of Subsection H of this Section.

(1) The facility will be used for the production or performance of musical or theatrical production activities, or as a support and component thereof, for the useful life of the facility.

(c) Prior to the final certification of a production or infrastructure project, the applicant shall submit to the Department of Economic Development a report an audit of the final amount of expenditures qualifying for credits pursuant to this Section, which report the Department of Economic Development may require to be prepared by an independent certified public accountant. The Department of Economic Development shall review the report audit and shall issue a final tax credit certification letter, certifying the applicant and indicating the type and amount of tax credits for which the applicant or other companies or financiers are eligible pursuant to this Section.

(4) Recapture of credits. If the Department of Economic Development, or the Department of Revenue find that funds for which a taxpayer received credits according to this Section were not expended for expenditures qualifying for a credit as provided in this Section, then the taxpayer’s state income tax for such taxable period shall be increased by such amount necessary for the recapture of credit provided by this Section:

(2)(a) Recovery of credits by Department of Revenue. Credits granted to a taxpayer, but later disallowed, may be recovered by the secretary of the Department of Revenue through any collection remedy authorized by R.S. 47:1561 and initiated within three years from December thirty-first of the year in which the credit was taken.

opportunities, and in conjunction with the available federal and state incentives, will be an attraction for new and relocating businesses and will provide for the reinventing of countless abandoned properties as either performance or rehearsal spaces. The live performance industry will also spur educational development: Louisiana colleges, universities, and vocational-technical schools will be able to offer talented undergraduate and graduate students from this state, other states, and around the world a real-world opportunity to participate in degree programs across the state that work on the various productions in accounting, law, management, and marketing and to fill arts-related positions such as actors, writers, producers, stagehands, and directors, as well as technicians working on all aspects of the production such as lighting, sound, and actual stage production and operations.

B. Definitions. For the purposes of this Section:

(4) “Limited state-certified musical or theatrical production” means a musical or theatrical production or a series of productions occurring in Louisiana by a nonprofit community theater that held a public performance before an audience within this state during the 2008 calendar year which has been certified, verified, and approved in accordance with the provisions of this Section. “Infrastructure expenditures” means expenditures directly related to the state-certified infrastructure project, including land and land acquisition costs, construction costs, design fees, furniture, fixtures, and equipment purchased subject to a sale agreement or capital lease. The Department of Economic Development may determine if expenditures submitted as production-related costs or capital costs related to an infrastructure facility represent legitimate expenditures for the actual costs of related goods or services, having economic substance and a business purpose related to the certified production or facility, and not constructive dividends, self-dealing, inflated prices or similar transactions entered into for the purpose of inflating the amount of tax credits earned rather than for the benefit of the production or facility.

(8) “Related party transaction” means a transaction between parties deemed to be related by common ownership or control, under generally accepted auditing principles. Related party transaction expenditures may be subject to limitations, as provided for by rules and regulations promulgated by the department.

(9) (10) “State-certified musical or theatrical facility infrastructure project” or “state-certified infrastructure project” means a capital infrastructure project in the state directly related to the production or performance of musical or theatrical productions as defined in this Section, and movable and immovable property and equipment related thereto, or any other facility which supports and is a necessary component of such facility, a new or rehabilitated prosenium or black-box theatre infrastructure project located in the state and any expenditures in the state directly related to the construction, repair, or renovation of such project, which are certified, verified, and approved as provided for in this Section. The primary purpose of the proposed facility must be to host live performances and must have a minimum capacity of five hundred. Expenditures attributable to areas other than where live performances will take place may comprise no more than twenty-five percent of total qualifying expenditures.

(10)(a)(11)(a) "State-certified musical or theatrical production" means a musical or theatrical production performed in this state, including but not limited to concerts, musical tours, ballet, dance, comedy revue, or live variety entertainment, or a series of productions occurring over the course of a twelve-month period, and the recording or filming of such production, which originate, are developed, or have their initial public performance before an audience within Louisiana, or which have their United States debut within Louisiana, and the production expenditures, expenditures for the payroll of residents, transportation expenditures; and expenditures for employing college and vocational-technical students related to such production or productions, that are certified, verified, and approved as provided for in this Section. Non-qualifying projects include, but are not limited to non-touring music and cultural festivals, industry seminars, and trade shows, and any production activity taking place outside the state.

Such term shall include the packaging, crating, and transporting of property and equipment used for special effects, sound, stage design, and stage management, as well as any other production or production-related property and equipment, provided transportation services are purchased through a company which has a significant business presence in the state.

(b) “Transportation expenditures” shall not include any costs to transport property and equipment to be used only for filming and not in a state-certified production, any indirect costs, any expenditures that are later reimbursed by a third party, or any amounts that are paid to persons or entities as a result of their participation in profits from the exploitation of the production.
