PART V. STATE-LEVEL COLLABORATION TO IMPROVE PUBLIC DRINKING WATER QUALITY

§1290.1. Legislative findings; purpose

A. The Legislature of Louisiana does hereby find and declare the following:

(1) The provision of water for public use and consumption not only safe but also acceptable in appearance, taste, and odor is of the highest priority.

(2) Water aesthetically unacceptable can undermine the confidence of consumers, will lead to complaints, and could lead to the use of water from other sources which are less safe.

(3) Generally, consumers have no means of judging the safety of their water themselves, but their attitude towards the water supply and water suppliers is often greatly affected by the aspects of water quality they are able to perceive with their own senses.

(4) It is natural for consumers to regard with suspicion water that appears dirty or discolored or that has an unpleasant taste or smell. Even though these characteristics may not in themselves be of direct consequence, they may consequently cause a substantial number of persons to discontinue using a public water system.

(5) On July 28, 2010, through Resolution 64/292, the United Nations General Assembly explicitly recognized the right to safe and clean drinking water and sanitation as a human right that is essential for the full enjoyment of life and all human rights.

(6) In November 2002, the United Nations Committee on Economic, Social, and Cultural Rights adopted General Comment No. 15. The Right to Water, which states the human right to water is indispensable for leading a life in human dignity and is a prerequisite for the realization of other human rights.

B. The purpose of this Part is to request the Louisiana Department of Health to lead a collaborative effort to improve public drinking water quality in this state, and to develop recommendations to the legislature concerning effective and responsible practices to improve and maintain the quality of drinking water provided by water utility systems.

§1290.2. State-level collaboration to improve public drinking water quality

A. The Louisiana Department of Health shall lead a collaborative effort to evaluate the issues and conditions of drinking water treatment and distribution in communities throughout Louisiana by performing a thorough evaluation of all of the following:

(1) The sanitary survey results for each water utility system across Louisiana.

(2) The effects deteriorating systems have on the safety, health, and well-being of Louisiana families, communities, and businesses.

B. The Louisiana Department of Health shall engage and solicit, as necessary, input, recommendations, and guidance from interested parties and stakeholders including but not limited to any of the following:

(1) State and local agencies involved in the regulation, treatment, and distribution of drinking water.

(2) Technical experts at the university and consulting levels.

(3) Water utility system owners and operators, community members, and state legislators from areas with known public water quality issues.

§1290.3. Reporting

A. The Louisiana Department of Health shall develop a report of the results of the collaborative effort required by this Part, including findings, recommendations, and proposed legislation, if necessary, and shall submit the report to the House and Senate committees on health and welfare no later than thirty days prior to the convening of the 2020 Regular Legislative Session.

B. The Louisiana Department of Health shall submit an interim progress report no later than thirty days prior to the convening of the regular legislative session of each year until the final report required by Subsection A of this Section is submitted.

§1290.4. Termination

The provisions of this Part shall terminate on December 31, 2020.

On motion of Rep. Hunter, the amendments were adopted. Rep. Hunter moved the final passage of the bill, as amended.
