Subject: FW: Eliminate District 81 Concern

I am concerned that the redistricting of district 81 is not in my best interest or the interest of the district. Please do not change the district. I do not want to be represented by another parish House Representative other than the one that was voted into office.

I was unaware of this idea and glad I was informed of this possibility. I feel a communication should be sent to all families in the district before any action can be finalized. The district should have a fair chance to voice any concerns.

Thanks

Randy Gaddy
