

Overview of the Louisiana Small Business & Entrepreneurship Council

Mandi D. Mitchell, CEcD
Assistant Secretary, LED

December 2020

The LSBEC was established in 2018 (Act 327)

Pursuant to Act 327 of the 2018 Regular Session (La. R.S. 51:2375 et seq)

The Louisiana Small Business and Entrepreneurship Council (LSBEC or the council) was established to identify issues pertinent to the operations of small businesses and advise Louisiana Economic Development (LED) and the governor on issues affecting the competitiveness of small businesses in Louisiana.

The council will advise the department on strategies to cultivate small business competitiveness and strengthen entrepreneurship throughout the state. The council in conjunction with the department will also work to ensure coordination of small business support between federal, state, and local agencies so as to decrease duplicative regulations, rules, and requirements.

LSBEC Membership

The LSBEC membership is diverse in many ways

Mandi Mitchell, CEcD – Assistant Secretary, LED

LED Secretary's Designee

Governor's Appointee

Iam Tucker – President & CEO, ILSI Engineering
Governor's Appointee

LSBEC Inaugural Report & Recommendations

The inaugural report set a baseline for where we are and where we'd like to go.

Where we are: While we do an excellent job of serving the small businesses and entrepreneurs that we reach, we have room for improvement in certain areas.

No. 1 in Small Business Services, *International Economic Development Council Gold Award, 2019*

PROGRAM	2019 IMPACT
Strategic Research Engagements	59
CEO Roundtables Graduates	63
Companies Certified through the SEBD Programs, Hudson Initiative and Veterans Initiative	2,508
Louisiana Contracting Accreditation Institute Graduates	189
Businesses Counseled by the SBDCs	2,948
Individual Trained by the SBDCs	3,802
Dollar Value of Secured Contracts Supported by the Bonding Assistance Programs	\$6,043,349

LSBEC Inaugural Report & Recommendations

The inaugural report set a baseline for where we are and where we'd like to go.

Where we'd like to go:

Access to capital

- Identify potential funding sources and structures
- Identify additional education services for small business owners and entrepreneurs
- Research options to improve Louisiana's entrepreneurial culture

Occupational licensing

- Perform a comprehensive review of all the occupational licenses in Louisiana in comparison to other states
- Evaluate opportunities to change laws and processes which will enable greater ease in making changes to occupational licensing requirements in the future; model after best practices implemented in other states over recent years

Regulatory

- Conduct further research on improvement opportunities related to workers compensation insurance and support incremental, bi-partisan, proven tort reform proposals that would result in more competition and lower costs for consumers and small businesses

LSBEC Inaugural Report & Recommendations

The inaugural report set a baseline for where we are and where we'd like to go.

Where we'd like to go (continued):

Other identified recommendations include investing in SourceLink (or a similarly robust small business asset mapping tool) and making improvements to the **Hudson and Veterans Initiatives:**

- Expand outreach and education efforts to potential Hudson/Veterans-certified vendors
- LED and the Office of State Procurement (OSP) will continue to work together to increase awareness of Hudson Veterans (H/V) Initiative programs and goals within agency purchasing or procurement offices
- Require agencies to submit agency-specific small business outreach plans with goals and strategies that increase contact with and education of potential vendors
- Clarify and strengthen the role of H/V Coordinators within agencies
- Raise agency thresholds for small purchases to either meet inflation or to a new, more generous threshold
- Strengthen accountability among prime contractors on following through with hiring/sub-contracting with Hudson- and Veteran-certified businesses when partnered with for added bid scoring points

LED CONTACT INFORMATION
