Speaker Tucker,

I cannot say it better than Nathan Chapman does below. Please look out for the French Quarter and other historic neighborhoods of New Orleans.

The Ligi amendment is causing the issues with the French Quarter. Please oppose this amendment.

Mr. Speaker,

As an employer and citizen, I urge you to PLEASE watch out for the state's economic and cultural jewel, the French Quarter, in all of the political redistricting in the House.

Please ensure that we are included with similar historic neighborhoods, such as New Orleans' Garden District, as opposed to the more traditionally suburban areas like New Orleans East.
