**Subject:** Rep Jim Tucker

Dear Rep. Tucker:

I am a resident of the Carrollton area – and president of our neighborhood association (Fontainebleau Improvement Association). I wanted to add my voice into the discussion on the remapping question in front of the House.

Please **do not support a redrawing of the map, known as Amendment 248 to House Bill 1**, that would place our area residents in the same district as those represented by a Jefferson Parish resident/elected official. Orleans issues, as those of other parishes, as you know clearly, are unique and should be represented and remain within the confines of our parish.

Regards,

Mark Romig
