Figures listed are total state allocations. The state-local split is shown in the "Appendix - CRF State & Local" tab.

---

The law set aside up to .5% of the \$30.750 billion appropriation (\$153.8 million) for territories, to be distributed in consultation with the Department of the Interior. These amounts are listed in the "Governor Fund" and "K-12 Fund" columns.

For higher education, the department has released lists of institutions receiving funds, by state. The "Appendix - Higher Ed" tab displays these lists. "Unallocated" includes Palau, the Marshall Islands, and Micronesia. In awarding grants under section 18004(a)(3), the secretary shall give priority to institutions that are not eligible under paragraphs (1) and (2) of 18004(a) for at least \$500,000 and demonstrate significant unmet needs for coronavirus.

---

For Child Care and Development Block Grant, Child Welfare Services, Family Violence Prevention Services, Low Income Home Energy Assistance Program (LIHEAP), and the Community Services Block Grant (CSBG), unallocated reflects tribal amounts. Head start unallocated reflects tribes, migrant program, Federated States of Micronesia, the Marshall Islands, Palau, and other activities. CSBG allocations are projected amounts released by ACF (and reflect a temporary withholding of \$43.5 million shown in unallocated pending confirmation of congressional intent regarding the formula); final amounts will be provided in subsequent guidance.

Congregate Nutrition Services and Home-Delivered Nutrition Services received \$480 million in the CARES Act (amounts by program are not specified) and \$80 million and \$160 million, respectively, in the Families First Coronavirus Response Act.

Allocations reflect awards to date. The CARES Act provides at least \$1.5 billion for grants to states, localities, territories, and tribes and the Coronavirus Preparedness and Response Act provided at least \$950 million. The Paycheck Protection Program and Health Care Enhancement Act provided \$11 billion for states, localities, territories, and tribes for COVID-19 testing.

In addition, state allocations reflect funds awarded directly to local governments (Los Angeles, Chicago, and New York City, plus Houston and Philadelphia for awards to date under the first supplemental). Unallocated includes awards made to the Federated States of Micronesia, the Marshall Islands, Palau, and tribal governments.

For Emergency Grants, unallocated reflects tribal amounts.

For Community Health Centers, Unallocated includes awards made to the Federated States of Micronesia, the Marshall Islands, and Palau.

For Hospital Preparedness, state allocations reflect funds awarded directly to local governments (Los Angeles, Chicago, and New York City). Unallocated includes awards made to the Federated States of Micronesia, the Marshall Islands, and Palau.

---

The supplemental UI portion is only available to states in which the number of unemployment compensation claims has increased by at least 10% over the same quarter last year. Additionally, to receive the supplemental funding, qualifying states are required to temporarily ease eligibility requirements that limit access to UI during the COVID-19 outbreak.

The department approved reduced initial funding amounts to address the critical community needs in areas hardest impacted. The amount initially provided is the lesser of 33% of the grant amount requested or a set initial award amount correlated to a severity rating.

---

Final award amounts will be different due to Hollings and other assessments. Unallocated includes tribal awards.

---

The CARES Act provides \$5 billion for CDBG, of which \$2 billion is to be allocated by the same formula as in FY 2020, and \$1 billion is to be allocated to states and territories based on specified factors. The allocations listed represent these portions. The remaining \$2 billion is to be allocated to state and local governments by a formula determined by the secretary.

State allocations exclude \$400 million available for adjustments in calendar year 2020 section 8 renewal funding allocations based on need. An additional \$470 million for administrative expenses is forthcoming.

---

These allocations include funding from the State of Good Repair formula, the High Density States formula, and the Growing States formula.

These allocations include funding from the Growing States formula and the Appalachian Development Public Transportation Assistance Program.

Apportionments do not include funds designated to increase the federal share of FY 2020 Airport Improvement Program and supplemental discretionary grants to 100%. The CARES Act included at least \$500 million for this purpose.

---

Unallocated includes awards made to the Federated States of Micronesia, the Marshall Islands, and Palau.

For both programs, figures reflect state agency grants. The CARES Act specifies that 40% of funds be distributed to state agencies, with the remaining 60% for direct grants. The programs both received a \$75 million appropriation. For the National Endowment for the Arts, Unallocated includes funding for seven regional arts agencies and administrative costs.

---
