### Significant Adjustments:

- **State General Fund**
  - Largest impact is from a MOF swap that decreases SGF and increases revenues from the Mineral Energy and Operation Fund. ($3.8M)

- **Interagency Transfers**
  - Decrease in transfers from DEQ and WLF from the consolidation of back-office functions, and non-recurs oil-spill funding from DPS. ($4.9M)

- **Statutory Dedications**
  - This net decrease is due to reductions of expenditure authority from the Oil Field Site Restoration Fund and Coastal Resources Trust Fund and an increase from the Mineral Energy Operation Fund. ($668K)

- **Federal Funds**
  - Reduction in excess federal budget authority that is typically not expended. ($5.2M)

- **Authorized Positions**
  - 15 positions reduced due to the transfer of positions to the Office of State Human Capital. (15 T.O.)

**Salaries and Related Benefits**
- Decreased due to normal statewide adjustments for attrition, retirement, and health insurance and due to the transfer of 15 positions to the Office of State Human Capital.

**Other Charges**
- Decreased due to the reduction of excess federal budget authority that is typically not expended and the reversal of the recent consolidation of back office functions of DEQ and WLF into DNR. These functions and associated funding will now go to DOA.
